chapter 1

Know How

Notes

Given at several places are important Key points that are applicable in Muhurtha and in Jyotisha also.

The dearth of Muhurtha mentioned often in modern Panchanga has proper science behind it. A few avoidable months like Adhika or Kashya masa that dodges muhurtha. Frequent Moudhya of Venus that coincides these months and at times concurrently occurring Jupiter combustion might farther away the chance of muhurtha. In general, they combust in different periods. Unfortunately, in either case the Panchanga deprives the muhurtha for both reasons though they are having different matters for muhurtha and their combust is to be considered individually. Despite exemptions sometimes the Shoonya masa is also included to avoid Muhurtha. With proper judgment several muhurtha can be included in a year.

A software called Divya Chakshu (android) is commended to accomplish of most of the components from this book.

Prime Key

At long last, the favorability of Muhurtha dominatingly relies upon the strength of Moon to represent the Day and Lagna the time. The further divisions like Hora, Muhurtha and Naadika cannot be undermined. The one-hour time of Hora, 48 Minutes of Muhurtha and 24 Minutes of Naadika is more specific and powerful in the descending order. On any day in a Samvatsara, in an Ayana, in a Ruthu, in a Masa, on a Thithi, on a Vara, the entire 24 hours consists of 12 Lagna, 24 Hora, 30 Muhurtha and 60 Naadika. A muhurtha chart on any day for a particular time is general in nature and universal. It is like a time chart that is cast for a Prashana. Unless the chart is individualized, the chart cannot be designated to a person. Similarly, a Muhurtha chart needs to be linked to a particular person. Therefore, similarity or compatibility of Nakshatra is a process. This Processes is called Tara Bala to link favorably of the stars between Native and the Day in question. The Moon position in a Nakshatra, the Lagna posited in a Nakshatra, the Muhurtha representing a Nakshatra or the Naadika representing a Nakshatra are all important components of Nakshatra. With this multiple nakshatra representations it becomes the essential task to link a desired day to a person.

A time Kundali is Muhurtha

It is only the Gochara graph (transit) outline to the minutest time division of 48 minutes and effectively adjusted in Naadika of 24 Minutes. Insightfully the muhurthakaras (creators of Muhurtha) have delegated matter requiring muhurta to speak through Lagna.

The Mind is a Must

The execution, experience, and condition are the work force of Mind suggested by Moon. The Sun and the Moon are incomparable leaders of Muhurtha.

An essential linking component grisly ignored

At last, nothing can supplant the Karma results aside from slight change or concede it for the present, by well-suited remedies. Rishis with unparallel intellect have offered a password in muhurtha to read destiny. This key is Dasha-Bhukti, Gochara, without which the Muhurtha has no added value.

With running favorable lords of Dasha, Bhukti, or Antra (for shorter time event, establishing sambhanda (conjunction, Mutual aspect, Exchange or being in the star) with Muhurtha Lagna or Lagna Lord, or Moon or with the Sign lord of Moon ensures the right selection.

In Gochara a greater number of planets favorably relates to Muhurtha Lagna or Lord, Moon, or the sign lord of Moon will strengthen the Muhurtha. In the appropriate chapter I will give a method to see Dasha and sparingly hint the characteristics of Gochara.

From Universal Kundali to Individual Muhurtha Kundali.

By Tarabala –is a process to link to Birth Nakshatra to the Muhurtha Nakshatra. By all means, if nakshatra repeats on a day by Muhurtha and Naadika, the connecting cycle has also shifted facilitating an alternative opportunity. Again, in Druva Naadi sage Satyacharya sets another classical option of choosing between Lagna Nakshatra and Moon Nakshatra. This widens the scope of Tarabala. Incredible sages have included numerous such ponders

that are to be investigated both in Jyotisha and Muhurtha to make errands simpler either for delineations or for the discrimination of time.

Genisis of Om Muhurtha:

The Folowing Shlokasa from the classical Muhurtha texts that were not explored earlier in application of Muhurtha is the basic urge to write this book.

In this Shloka If the Vara prescribed is not suitable then any suitable Hora on that day can be selected. Similarly, if the days Nakshatra is not auspicious or if it has no Tarabala then any of the suitable Muhurtha Nakshatra out of 30 Muhurtha or any of 60 Naadika representing Nakshatra can be used for both as Nakshatra and for linking Tarabala.

The 27 Nitya yoga has also Micro Yogas of 27 to each of this Yoga. Therefore, the option to select right yoga in the absence of favorable yoga of the Day or it can be used for fine tuning of a particular yoga with supporting good micro division.

Note: The micro divisions of Nakshtra, Vara, Thithi and Nitya yoga can effectively be used to form different yogas at the selected Muhurtha

Lagna

□□□□□□□□□□ □□□□□□□□□□□ □□□□□□□□□□□ □□□□□□□□□□□□

□□□□□□□□□□□□ □□□□□□□□□□□ □□□□□□□□□□□□□□□□□□□

The “Devajya” indicating Deva Guru as Jupiter who is 100% beneficial and Paksha guna bala Chandra is equal to Guru. and It says the Rakshasa Guru is Venus and 75% benefic (this means in his good ness there shall be element of Papa or suffering) This is again represented by 3/4 of full Moon. Then 1/2 Moon is equated with Mercury who is another Guru.

Therefore, Jupiter, Moon, Venus, Mercury all are Gurus. In this Moon takes up the roles of all the three gurus by his Paksha Guna Bala. Less than Half he does not take up the roll of Guru. Then he takes up the role of Krura.

1. Swachhanda Guru = Independent nature, = Chandra, 2. Deva Guru Heavenly Guru = Brihaspati, 3. Asura (Supreme spirit) Guru = Shukra charya, 4. Sumathi (Intellect) Guru = Budha. - All are gurus.

In this if Muhurtha Lagna is of Guru Group: The Jupiter Leads as Guru to them and his strength is essential as he owns either Shubha or Ati Shubha houses. Dhanus, Meena,

Mesha, Vrischika, Karkataka, Simha if chosen as Muhurtha - Guru should be strong. He should not be combusted. For these Lagna muhurtha the Venus is being an opponent, it hardly matters about his weakness or combustion.

Similarly, for Muhurtha Lagnas of Venus Group: That is Vrishabha, Mituna, Kanya, Tula, Makara, and Kumbha Lagnas the Guru is Rakshasa Guru Venus who should be strong. His combustion, His Debilitation and weakness to be avoided.

For these Lagna the Jupiter is an opponent therefore his weakness does not matter much. Mercury is dual natured Guru, who has link to Jupiter group Lagna due to his foster father Deva guru whom he treats as equal.

On the contrary since Jupiter treats Mercury as Enemy, the Venus as Rakshasa guru bestows blessing on Mercury. Thus, Mercury participates in both group as a reconciling Guru.

Moon also has the quality of changing his position of Deva Guru, Rakshasa Guru and even the reconciling Guru by his Paksha Guna Bala (Paksha means the taking a side).

That is why Moon Most Important in Muhurtha.

Now let me complete the Shloka:

□□□ (Mars) □□□□□□□□□ □□□□□□□ (Mars is ¾ Papi) □□□□□□□ □□□ □□□ (Sat) □□□□□ (Ketu) (Full Papi are Saturn and Ketu) □□□□□□ □□□ □□□□□□□□□ (Less than half Moon turns ¾ Papi) □□□□□□□□□ (Sun) □□□ □□□□□ (Sun becomes ½ Papi) □□□□□□□□ □□□□ (papa associated Budha is full Papi) □□□□□ □□□□□□□□□□□ □□□□□□: □

Mars is 3/4 Papi, Saturn and Ketu are full Papi, less than Half Moon behaves like 3/4 Papi, Sun acts like half Papi. Mercury associated with Papi turns full Papi.

Note : The Sun is not a Papi in muhurtha as he is the main source of Nature of Chandra when stands at 180 degrees. If his rays turn Moon as utmost Soumya as Poorna Chandra, how we set aside Sun as cruel. Yes, the closeness causes combust of planets and Moon becomes invisible. This is to be understood before declaring the Sun as cruel.

Since he is the Spirit and Atma Karka, the last rites and death rituals like Tarpana and Shraddha is assigned to his week day and his powerful day Amavasya. He is a strict planet being the Governor of the entire planetary cabinet. Since he is Atma Karka he is not supportive to any relational bondage. Therefore, for Relational bondage matters he should be kept aloof. Rest for all recognition status and success and health matters he should be considered as absolute Shubha. This applies in Muhurtha and also in Phala Jyotisha.

Since Moon and Mercury are designatory of title of Gurus their influence on the Muhurtha Lagna is very much important. In Muhurtha Mars, Saturn are considered as Papi. Two Tamasa Graha Rahu and Ketu are also joining the list of Papi.

With this authentication, the logic is applied to explore the opportunities available for selecting an auspicious time for an event. The decorum and the spirit of the classical texts are kept intact and no self-ordained maxims are entertained.

7.There are no clear indication of Rahu and Ketu aspect. But they have the 5th and 9th Aachhadana (cover or eclipse). Rahu is like opposite of Soumya Guru and Ketu is opposite of Soumya Shukra. They both act extremely with the different qualities of Mercury when they cast their Aachhadana on Mercury.

8.Moon and Lagna Strengths are utmost importance.

9.The word “Paksha bala” is misinterpreted as strength of Moon. Moon in Shukla or Krishna Paksha does not indicate strength or weakness. It denotes the quantum of his kindness or cruelty. (higher percentage of cruelty results the nature of event, but it does not prevent or spoil the event. If Moon is strong despite his quality, will ward of many evils in the Muhurtha chart. Not deviate and get confused with traditional usage of word “Bala”I will just replace with Paksha Guna Bala”.

10.In considering Muhurtha Kundali, the planets are grouped as under:

a.Samaya Anga Graha i.e., Sun and Moon.

b.Shubha graha = Jupiter, Venus, Mercury

c.Papa graha –Saturn and Mars

d.Tamasa graha –Rahu and Ketu

(See Lagna chapter for Further explanation)

A table showing the above grouping with their friends and enmity is given bellow:

	Planet
	Samaya-Anga Grahs (Time Component Planets)
1	Sun (Simha-Stira)
2	Moo (Karka-Chara)
	Shubha Planets in the Order of Merit
3	Jup (Dhan/Meen- Dwi)
4	Ven (Virb/Tula-Sti/ Cha)
5	Mer (Mit/Kan-Dwi)
	Papa Planets in the Order of Merit
6	Sat (Mak/Kum- Cha/Sti)
7	Mar (Mes/Vrk-Cha/ Sti)
	Tamasa-Krura-Daruna-Cruel Planets
8	Rah (where he sits)
9	Ket (where he sits)
	Having Papa and Tamasa in Their Signs the Lord Shall Also be

Note: - Please remember this as this shall not be repeated. It should strike to you wherever you read Upachaya.

In this statement there are other information about the planetary friendship, Equality and enmity. This is a best tool to substitute the inconsistent method of Upachaya stana which has material satisfaction but destruction of other side of life.

The Evil planets in Muhurtha are Mars Saturn Rahu and Ketu. Mars belongs to Jupiter group and Saturn belongs to Venus group. Therefore in each other's house they become weak.

Rahu belongs to Venus group; Ketu belongs to Jupiter's group. Mars is weak with Rahu and Saturn is weak with Ketu.

Mars if aspects Rahu or in trine to Rahu will become weak. Saturn if aspects Ketu or in trine to Ketu will be weak.

Rahu is weak in Sun, Moo houses because he cannot over rule their origin. Similarly, Ketu.

Sun is weak in Saturn house. Sun is weak with Rahu. Moon is weak with Ketu. Mutual aspect between Saturn and Sun, Saturn and Mars will make both weak.

Sun, Saturn, Mars if they are debilitated in whatever percentage (they should be in the degrees of debilitation. Debilitation is from 1 degree to 10 degrees, Mars is from 3:20 to 28 degrees. Saturn debilitation from 10 degrees to 20 degrees).

If Saturn within 15 degrees and Mars 17 degrees on either side of Sun will be combust and that renders them weak resulting in strong Muhurtha.

Moon cannot be treated as cruel in Muhurtha – His Paksha Guna will have some negativity or dissatisfaction in experiencing the event but does not harm unless he is ill placed.

While using the selective Upachaya stana the above said points of cruel planet that reduces their cruel nature will have more impact in strengthening the Muhurtha Lagna. Whenever the Upachaya is mentioned simultaneously refer to this chapter.

chapter 2

Complex Confusions Cleared Classically

Traditional writings on Indian Astrology and Astronomy in Sanskrit are the prime standards to get hailed for their rich structure with scholarly coded poetical developments to meet their syntactic meter assignment. In the progress from vocal to the record, there were missing connections.

Therefore, the subject was converted into numerous dialects, and shockingly, a few, even, cases that this science was first written in their vernacular language then into Sanskrit and different dialects. Contentions separated clearly the root surely the Sanskrit. The subject is yet alive simply because of a couple of gurukuls instructing. Many incredible researchers have contributed in 16/17, 18/19 Century. Later, after English interpretation, many creators have contributed.

In this cycle, somewhere, the key connections are absent. The books written in Sanskrit itself have plenty of missteps. Certain fundamental key data to contemplate traditional approach is absent. Regardless of whether an individual knows Sanskrit, the common sense applicational training that should come from a gurukul is missing.

Muhurtha is having differences and by considering I found that numerous customs and standards were outlined on the local culture and rehearses and hence certain limitations or even authorizes were contingent that is connected to the way of life and rulership of the Dynasty.

Be that as it may, the rulership has been continually changing with altering the geological limits. The realms alluded to in that are not detectable now and can’t be separated in the current guide.

Regardless of whether Identified, those societies and conditions may not be existing at this point. Subsequently numerous proclamation that has local impact should be erased and the spirit behind should be taken.

The exertion is made to give less significance to those proclamations, as they additionally have special cases.

With crazy data and with solid offbeat conviction on baseless essential, the current day muhurtha has lost its believability. Another explanation behind this is the customary gossip followed aimlessly by customers requesting a muhurtha as per their credence.

Likewise, they also influence the Well-read priest to capitulate to their interest both with their inane idea and their desperation. The poor priest succumbs to their force and picks of generalised components and fixes muhurtha. Ultimately many a times, the time fixed never maintained.

In this work, numerous choices with various elective mixes, that are covered up in the writings are taken out and the fixing of Muhurtha if not simpler at least shall have clarity by using this selective technique.

The time choice will have the necessary favourability and shall be auspiciously noteworthy.

What is Muhurtha?

Not every nativity born with super Yogas or at least blessed all time with sequentially accomplished with benefic planetary periods. Even if granted there are time units that determines development or destruction of activities undertaken.

They are:-

1.Varsha (year), Masa (Month),

2.Thithi (Paksha), Vara (Week day) Nakshatra (Star on the day where moon reside), Karna (the activity) Yoga (Harmony) to decide a day

3.And, still lesser units of time to select through a. Lagna (2 hours), b. Hora (One hour), c. Muhurtha (48 minutes), d. Naadika (24 minutes)

4.Again, within the range of Muhurtha and Naadika Further qualitative selection based on Pancha Tatwa (that runs in Straight and reverse order on each Weekday with different sequence commencing from Sunrise to next Sunrise.

a.Prithvi (6 minutes)

b.Jala (12 Minutes)

c.Agni (18 Minutes)

d.Vayu (24 Minutes)

e.Akasha (30 minutes)

These though need not be a part within the Naadika as no reference in classicals, but has its influence on the matters with further division of time in a different structure. It is because of this reason, I made it as different limb of direct Muhurtha.

From Thithi, Vara, Nakshatra, Karna, Yoga –becomes one set of Panchanga for selection of a day.

Rest that is Lagna of 2 hours, Hora of 1 hours, 48 Minutes of Muhurtha, 24 minutes of Naadika ruling at that time and if considered the power of muhurtha by Tatwa, all are to decide the right time on that right day. This is called Dashanga yukta –Muhurtha.

These are the intergalactic time predefined with either good or bad energies that support or destruct the desired activities.

In the event of fortunate or unfortunate ruling time of the native, if any event need be commenced, it is essential to match the activities, that strikes right chord with that beneficial span decided by the Cosmic energy.

If fortunate, the right selection of time will doubly enhance the benefits and If Unfortunate, the same selected time will destruct the event. The key is Dasha Bhukti Antra from Phala Jyotisha.

chapter 3

Concept of Muhurtha

A person very much settled with extravagances like Bungalows, resorts, cabins, and a few latest luxury vehicles and having numerous drivers and workers on the off chance if he intends to go to any Pilgrim, he can choose the best vehicle from his carport and picked the desired driver and helpers to travel. It is simple for him to remain there having own bungalow/resort. if the selected time is good to commence the Journey, visit the holy place and stay put there, it’s all a gift from the heavenly spot all will go very well giving him significant serenity.

Unfortunately, if the chosen time is inappropriate the same luxury car, the driver, the helper, and on-journey eventualities may confront issues like obstacles, pressures, or issues at the sacred spot. Despite visiting the heavenly spot or the deity, the brain might not have the genuine holy feelings. The entire outing will be unpleasant.

Selectively, if an ordinary person without the luxuries, comforts as enjoyed by the first person explained above, if need to heading towards a pilgrimage, cannot take instant decision to travel but must depend up on the public transport that moves according to the time table. This man

needs to match those days and select the right day for travel. Not only that basing on the time of departure of the public transport, he must fix the commencing his journey from his residence choosing right time as per muhurtha. If he misses the right time the obstacles and troubles shall be similar as explained earlier.

In both cases selection of time of travel is important, one to enjoy the fortune granted to first person and 2nd to enjoy the purpose of journey despite not having the fortune in his birth Kundali.

To summarise, every event right from birth, are all ruled by the good energies and bad energies that are predominant every unit of time for the 24 hours. (the science and philosophy of intergalactic time is a voluminous and the space does not permit to discuss here). The selection of right time that releases the positive energies is the ultimately goal of Muhurtha.

It doesn’t change or fix the destiny. In any case, the experience of an occasion gets positive support, if time of starting an activity is perfectly chosen.

Frequently mindless writings hitting the stands at books merchants, with all fast and short strategies and joke prescient methods not having any confirmation from traditional writings have stuck the scholarly yields and the substance are just whip reiterations.

This has and will occupy the space that makes short of classicals. This is the explanation that the interpreted books don’t have the correct data about structured classification of planets and lordships

First this is to be distinctly understood before venturing into either Muhurtha or Jyotisha

Most important is the grouping of planet into Krura and Soumya

Krura = Cruel

Soumya = Kind

By time-honoured dictum –Brihath Parashara Hora Sastram clarifies this

□□□□□□□□ □□□ □□□□□□□□□ □□□□□□□□□ □□□□□□□□□

□□□□□□ □□□□□□□□□□□□□□□□□□□ □□□□□□ □□□□□□□□□ □□□□□ 3-11 □

Gist of Shloka : Sun, Saturn, Mars, decreasing Moon, Rahu and Ketu are Krura and associated with these planets Mercury also becomes Krura. (Cruel)

Rest all the planets –are Soumya (Kind)

“But the translation is “Among these the Sun, Saturn, Mars, decreasing Moon, Rahu and Ketu (the ascending and descending nodes of Moon) are malefic while the rest are benefic. Mercury, however is a malefic if he is joins a malefic)”This has misled the fundamentals.”

Parasara is clear in classication. Planets that are grahas are classified by their nature Soumya and Krura. Lords are classified as Ati Shubha, Shubha, Papa Ati papa. With missing clarity on this classification, at the higher studies of Jyotisha, the confusion gets confounded. This has led to constructions of indoctrinated combinations quoting doctored examples.

The translation and later date authorships have muddled with these words and mixed-up Shubha papa even to Graha (planets). This is evident in the muhurtha books and translated Jyotisha books. Modern astrology books have indiscriminately induced many vocabularies leading to systematic onslaught of classicals in their original format. Evidently the substitute for Varga Kundali as Divisional chart yet short cut as D charts, transporting the sign dignities of

360 degrees to illogical geometrical impossibilities in Varga, ignoring the sanctity of interchanging Varga guna of grahas.

The Varga Jyotisha is a science that is a high-power microscopic tool. All the activity and dignity of the planet must be seen in birth chart using the transitional changes in position that occurs in Amsha. The dispositer of a planet in Amsha lord plays vital role in Birth Chart. In this aspect Muhurtha is clear in assessing Shadvarga strength.

For Muhurtha, the planets need a different grouping.

1.Mars and Saturn = Krura (Cruel) graha can be attributed as Atipapa Most malefic.

2.Lagna and Chandra (Moon) = (samaya soochaka) Time personified.

3.Guru Group : Guru (Jupiter), Ravi (Surya).

(Mars though same group is in a Krura group), Moon Chandra has become a time component.

4.Venus group : Shukra (Venus)= Soumya, Budha (Mercury) Soumya, Shani (Saturn) has already in the first group

Atipapa.

5.Rahu and Ketu are Tamo grahas and they behave like the planet with which they are associated. They also capture the house where they occupy. Hence the sign lord occupied by them will also have the qualities of Rahu or Ketu as the case may be.

Therefore, in an overall effect in Muhurtha –Shubha stana or Shubha graha means only Jupiter, (Ravi in specific cases) Venus, and Mercury. [□□□□□□□ □□□□□□□□□□ □□□□(Mercury with Krura becomes Krura) This dictum apply only for Jyotisha in Bhava Analysis. But in Muhurtha Mercury is always Soumya.]

Their signs and Navamsha signs are favoured. Muhurtha Lagna and planets in these Navamsha (treat Lagna longitude also as a planet) are deemed to be in good Navamsha. (nine planets + Lagna)

6.The sign where Paksha guna bala Moon is posited, that sign irrespective whether it belongs to Krura or Soumya, that sign in Amsha will also become Shubha Amsha. Any planet or Lagna or Moon placed in these Amsha will also be considered as being in Shubha Amsha.

chapter 4

Dasha-Muhurtha-Anga

The intergalactic superior time of tenfold structure engineered either helpful or harmful for an activity to be commenced is called “Dashamuhurtaanga”.

Day Selection: Panchanga Day for a desired event.

A.THITHI (the most important element)

B.VARA (next most important element)

C.NAKSHATR A (next element in order)

(The nakshatra Bogha or the Moon’s mansion in zodiac. That is Moon in a Nakshatra is the Day)

D.KARNA (selectively with options to mitigate evils if any)

E.YOGA (a ready reckoner of certain auspicious or inauspicious moments)

This Section by scrutiny allows for a selection of suitable day for a desired event.

Time Selection for desired Event:

A.Lagna For Muhurtha having a span of 2 hours maximum

(Primary Unit of time that is spread over in the zodiac commencing from the sign rising at Sunrise till next Sunrise 12 Zodiac signs as selected time)

B.Hora for the week day –Approximately lasts an hour within Lagna (Hardly taken note of now a days)

C.Muhurtha –It is a crucial 48 Minutes of auspicious time to be selected.

D.Naadika: The two division of Muhurtha 24 minutes each. This is highly ranked by Sage Bhargava as supreme catalyst that triggers either effective or evil of the event. (totally neglected by priestly class fixing muhurtha)

E.Lastly –This is a temporary and quick heal method –to overcome the exhaustive labour in selecting Muhurtha and can be used for quick fix method. (Not for major matters) This is Pancha Bhoota Tatwa that runs in to 6 minutes of Prithvi Tatwa commences on Wednesday, 12, minutes of Jala Tatwa on Monday/Friday, 18 minutes of Agni Tatwa on Sunday/Tuesday, 24 minutes Vayu Tatwa on Saturday, 30 minutes Akasha Tatwa on Thursday. (but it has its essence if noted the right Tatwa at the time of Muhurtha, if Naadika has the powerful effect, the very fabric of creation should definitely have incredible essence)

So, I select a Day and I select a time for an event. The Kundali I cast is universal. That means that Kundali speaks of the event in general applicable to all.

The scholarly quest does not permit to accept this generality and hunts for an option to relate it to a specific person. That is intelligently done by the Tara Bala module.

At the outset it is stated that counted from the Janma Nakshatra to the Muhurtha day’s nakshatra if in odd number it is to be avoided and if in the even number it should be considered favourable and include the odd number 9th also as favourable. This means a favourability is considered to link the Muhurtha day to the Native.

This is a broader prospective. But rishis have gone into micro divisions of Thithi, Vara, Nakshatra, Yoga. Since we

are talking about Tara bala that is the strength of Nakshatra, the nakshatra participates in different zones.

1.Janma Nakshatra (of the day 24 hours) is of Moon.

2.Lagna Nakshatra the time concept reduced from day to two hours.

3.30 Muhurtha ruled by Nakshatra at an interval of 48 Minutes.

4.The Micro division of Muhurtha half the time of Muhurtha 24 Minutes (the one crowned by sage Bhargava).

In the event of one failure designated nakshatra the other 3 options are open to fit in favourable Tarabala. All these nakshatra equally participating in Muhurtha for favourability logically they qualify to be as optional nakshatra to fit in link the individual to Muhurtha chart for a favourable Tara bala.

While consciously we permit for such an alternative and settles down for micro division of nakshatra, what prevents to identify some of the nakshatras that ruled the native at the time of his Birth. Native’s birth details are nothing but a Muhurtha chart of the entry of native in to this world.

1.He is born on a Nakshatra day.

2.He is Born in a Lagna that resides in a Nakshatra

3.On that day he is born in a particular Muhurtha Nakshatra,

4.At the micro level he is born in a Naadika Nakshatra. All these nakshatra belongs to him. If Rishis have sanctioned these micro level considerations for a muhurtha day, obviously it is logically applicable to the native too.

Appreciably sage Satyacharya in Dhruva Naadi categorically declares that strongest among Lagna Nakshatra and Moon Nakshatra to be considered as Birth Nakshatra. By this logic either Birth Moon or Birth Lagna has option to select.

The sages have also declared that the matters that are to be performed as designated to a Nakshatra can also be performed in the Nakshatra representing a Muhurtha. It is implied that the next option of Naadika Nakshatra is also to be used. The Rishi Bhargava in fact gives importance to smallest unit of division when he says,

1.Ayana is stronger than Varsha,

2.Ruthu is stronger than Ayana,

3.Masa is stronger than Ruthu,

4.Paksha is stronger than Masa,

5.Vara is stronger than Paksha,

6.Thithi is stronger than Vara,

7.Lagna is stronger than Thithi,

8.Hora is stronger than Lagna,

9.Muhurtha is stronger than Hora,

10.Naadika is absolutely stronger than Muhurtha. In all these matter where Nakshatra is representing the smallest unit is given the most importance.

Therefore, in Tara bala Chapter the options to link the Muhurtha Kundali to Native includes all these options.

Lagna Time that is Lagna of the Day

The Samhita pradeepa is right both Lagna and Chandra should be strong. It is for this reason I have dedicated separate Chapters Lagna and Chandra.

Lagna the Time Pre-eminence

“With a feeble Lagna, Chandra with great strength can’t give desirable good results, in spite of having solid components to do great, if fortune is a disappointment, the Moon can’t give a decent impact. Therefore, Strong Lagna is preferred”.

I am gently opted for both and adopt the dictum and give equal importance to Lagna and Moon in Muhurtha.

Chandra is about the Muhurtha matter on a particular day. Lagna is about the about Muhurtha matter at a specific time of the day. Both ought to be great. Different components are only the subsidiaries of Chandra and Lagna. Constituents of Chandra, Thithi and Nakshatra have Micro divisional alternatives. Also, the Lagna module has supporting parts, Hora, Muhurtha, Naadika. The hora substitutes or upkeeps the Weekday. Muhurtha and Naadika likewise alternatives or Support for Nakshatra.

Lagna the Time Pre-Eminence

There are a host of arguments by Rishis and acharyas about Lagna Bala and Chandra Bala scoring over each other. It turns out to be too long to even think about quoting all the shloka and importance here. With consistent methodology for me every one of them is right with their contextual agenda.

While studying dictums common sense should strike brilliantly to choose a strong Moon for the Day and powerful Lagna to be time specific. They should be complimentary to each other.

Unequivocally the Moon validates the matters to perform on a selected Day. Lagna is the time pre-eminence to commence the matter lead by it in Muhurtha.

All planetary configurations in the Muhurtha Kundali to contribute strength to both Moon and Lagna.

In general, the translation is given in all languages like this

“If 5th lord is Enemy to Lagnesh, loss of son due to said devatopasana.

If 5th lord is Equal or friend to Lagnesh, then the Mantropasana of deity will attain siddhi and the deity shall bestow all prosperity on the native.”

Fundamentals of Friendship, equal and enmity unanimously declare that 1st. 5th and 9th Lords are always Friends. Therefore, there is no question of each other becoming enemy or equal.

Be that as it is, the friendship and enmity factors are of two kind. One that relates to Grahas. The other one is relating to Lordship that is distinctively endorsed in Hora Nirnaya Sangraham ‘which is authenticated by shloka in the ensuing paragraph. There are positional dignities of lords that change their nature towards Lagna. This changes the equations of friendship and enmity among Lordships.

The same gist is given to compute strength of Lagna the prime Muhurtha consideration.

Dignities of houses and Lords:

For Moon 4 8 12 is Shubha and 2 -6-10 is papa

For both 1 5 9 is Ati Shubha

For both 3 7 11 is Ati papa

The planets are divided into two groups:- 1. Jupiter Group: consist of Jupiter, Sun, Moo, Mars & Ketu. 2. Venus Group. Consist of Venus, Mercury, Saturn and Rahu.

The principle of categorising the planets is given below:

ATI SHUBHA	SHUBHA	PAPA
1-5-9 & 2-4-10	1-5-9 & 6-8-12	3-7-11 & 2
Sun & Moon 1 5 9 Lordship	Sun 2 6 10 & Moon 4 8 12	Sun 4 8 1

1.For Ati shubha and Shubha group Lords the lords of Papa and Atipapa are Enemies.

2.Ati Shubha and Shubha are friends. Similarly, Papa Atipapa are friends.

3.Ati shubha is in his own place or if he is in Shubha houses (except when the 6th lord or 8th lord or 12th lord is in his own place) then, it is good for Ati shubha houses. (if he is in 6th or 8th or 12th with either 6th lord 8th lord o 12th lord then he will lose strength to be Ati shubha).

4.Shubha planets if they are in their own Kona houses it is very good, they will also be good in any house of Ati shubha. If they are in their own houses of 6th or 8th or 12th then they lose their strength as Shubha Planet.

5.Both Ati shubha and shubha lords will lose the strength when they are posited in any houses of Ati papa.

6.Both Ati Shubha and Shubha planets if they are in any house of Papa, if there is an aspect of Jupiter, Venus, Mercury or Bright Moon, they will not lose strength but may do little good.

7.Papa or Ati papa if they are sitting in Shubha, they will not harm any house materially they shall be beneficial but not good for relational and personal. (like health and feelings).

8.Papa or Ati papa if they are sitting Ati shubha their bad effects are considerably reduced and shall be very good in Material benefits and to a certain extent gives opportunity to overcome personal and health issues and also reconcile relational maters.

9.The Rahu and Ketu if occupy any of the above houses alone will act like owner of that house and behave as defined above. If they are with a planet in a house, they will act like the planet with which they are associated if they are approaching them (that is their degrees are higher than the planet). If they have crossed a planet, they will still act like the planet which they have crossed and if there is no other planet in lesser degrees to them, they will also become the owner of that house. If they find a planet after crossing another planet, they will take over the dignities of that planet also.

10.Rahu or Ketu can allow the planet in its opposition to view them, if any planet with them is higher degrees. (Yes, there is no Mutual aspect of Rahu and Ketu. Independently they have a relationship to establish with 5th and 9th).

All the above 10 points for Natal Horoscope for Dasha Bhukti Analysis.

We can assess the Dasha Bhukti at the time of Muhurtha to how best it is supporting the event or the timing of event to be changed.

Basing on the above principle, a module is given below to assess he strength of muhurtha.

The muhurtha is an idea of Planetary effect on the Lagna that conveys the Muhurtha matter. Together they choose the nature of event.

Three Gurus that is Jupiter as Deva Guru, Venus as Asura Guru and Buddhi Guru as Mercury and the consciousness Moon as Swa Guru are all to invigorate the promise.

The remainder of forbidding planets trigger their impact on Lagna to lessen the muhurtha quality. It is imperative that getting 100% strength to Muhurtha is unreasonable. The greatest promise is what is sought for in Muhurtha.

From the Papa stana the Upachaya Stana are selected to place tl

This grouping is done for the sake of muhurtha.

chapter 6

Chandra – The Day decider & Chandra Balam to Native

Before anything else to study in this chapter memorise that the Lord of the sign where Moon is posited should not be in Enemy camp (it's not planetary enmity its lordship enmity) counted from Lagna. (refer to Atishubha, Shubha, Papa & Atipapa).

Chandra the Champion to Choose the Day: - Sharangadhara announces Chandra as Prana (Life-power), Lagna as Body, different planets are Dhatu (Cause) and appendages are shadvarga. Without Life-power any remaining segments are squandered. The Moon is like a queen of Muhurtha.

In an alternate examination Samhita Pradeepa seconds, the above statement. Jyoti Nighantu and other traditional messages (by Naarada, Vasishta, Shripathi, Lallacharya, etc) additionally backing offers significance to Chandra. A stride ahead by above Nighantu proclaims, that any remaining planets give their outcomes according to their solidarity picked up through Chandra Bala.

The impact of a sound Moon on any planet will invigorate that planet. As such, the merciless planets lose their harshness while the benevolent planets become more gainful. Be that as it may, for the space economy I would have given shlokas with their promise by word meaning. Observe through nativity examination thou will be shocked with the intensity of Moon turning win over chances.

The percentage of Moon's nature in Krishna Paksha and Shukla Paksha is indicated in the Thithi & Karna Chapter. Often it is referred to as Paksha bala. (it should be Paksha guna bala) But it is not the strength of the Moon. It is the range of his sense of acceptance or resent.

Therefore, it's not right to think phases of moon in terms of its strength. Despite being in Krishna paksha the Moon shall play his role as leader if he gains strength in the Muhurtha Kundali not to mention separately about nativity.

The Amavasya Chandra that is New Moon if has strength, does not deprive the material aspect, but being in the state of inexpressive, may have element of resentment in the beneficial results. It would be more meaning full if Moon is addressed with words like Shreshta, Madhyama and Adhama instead of insensible words like Krura. Despite care is

taken to use the same phrase everywhere, (Note: if inadvertently the word Krura creeps in for Moon please substitute with Madhyama or Adhama).

In the least % shown in the statement below he loses his Shreshtatwa to make mind discomfort and attract negative shades in the events. Be it Shreshtatwa or Adhamatwa the strength of the moon is discussed in foregoing paragraphs. There is difference between strength and quality.

According to Brihaspati Moon shall engage in auspicious activities if it has aspects of Guru, Shukra & Budha and the Muhurtha Lagna Lord.

(Note: This is the most important factor to be noted in muhurtha. It hardly matters whether Moon is Shreshta or Adhama if he gets a support of Jupiter, he turns around equally to reciprocate).

He shall engage in bad or inauspicious activities if he has the aspect of Saturn, Mars. When it comes to the question of Rahu and Ketu they are the two faces of the same coin Moon. The impact is more with association and has effect in trines too.

They are the product of Moon cutting across the Sun plane and shifting its pace ahead while the path being apparently retro. These energy points have both effect of Moon and Sun. Rahu ignites the fundamental quality of imagination of mind. While the Ketu ignites the soul, rejecting the imaginations. The other side of the Moon is depression is caused by Ketu. Both nodes are Apasavya that is reversing characteristics, their influence will be opposite to the accepted norms.

(Note: Rahu, and Ketu shall cast their Aachhadana (5th and 9th) and they act like opposite to Soumya Guru and opposite of Soumya Shukra respectively and behaves strangely when they cover Mercury and eccentrically behave like the sign lord when they occupy the sign. This behaviour of nodes applicable in Natal chart too).

Birth Moon V/S Muhurtha Moon

Simply it is Transit moon from Natal Moon, to credit the Muhurtha with beneficial aspect.

If Moon transiting from its Radical position to Muhurtha chart in 1st 3rd 6th 7th 10th 11th houses it is benefic to Native. Thus indirectly it is helping Muhurtha Lagna.

This is quite reasonable because it is not a muhurtha rule. It is Gochara rule.

There is an interfering school of thought –it says that Moon with sufficient Paksha Bala (guna) if transiting in 2 5 9 and without Paksha Bala (guna) if transiting in 4 8 12 it is acceptable. Contrast movement shall be unfavourable.

With strained logic if the above inference is accepted, it is stretched to far convincing that is messing up true transit principles in Muhurtha. The several context given are transparent in respective muhurtha.

Read this only for information, not for application.

It says the unfavorability, is nullified if the Moon is Shubha Navamsha or Adi Mitra Navamsha or having an aspect of Jupiter.

Further it says that Moon in 12th to one's Janma Rashi rejected for auspicious activities like Upanayana, Marriage, Gharbhadana, Swearing in ceremony, and travel. Transiting in Janma rashi is bad for tonsure and Long journeys, with different Nakshatra Janma rashi transit is acceptable for Marriage, Annaprasanam. So transit of Moon in Janma Rashi to be avoided for Travel, Marriage, Battle, House entry and Haircut. At appropriate places the right rules are discussed for these matters.

Most Important:

It is important to see the position of Moon in Muhurtha chart in relation to Lagna.

In Muhurtha Lagna – the Moos sign:

1.It should not be in 6th for Mesha, Mituna, Simha, Tula, Dhanush and Kumbha as Muhurtha Lagna. But It can be 8th or 12th house.

2.It should not be 8th or 12th Vrishabha, Karkataka, Kanya, Vrischika, Makara, Meena as Muhurtha Lagna. But it can be 6th house.

Moon should not be in 1st or 7th house of Muhurtha Lagna. Moon should not be with any other planet.

Most important factor (not at all discussed in muhurtha texts): The dispositer of Moon is supposed to be Lord of Moon Lagna:- It is equally important to see this Moon Lagna Lord position that decides the strength of Moon.

1.Moon Lagna Lord (for example if Moon is in Kanya the mercury is the lord of Moon Lagna). As a Mercury and as Lord of Moon Lagna Lord he can be in 1 5 9, counted from Muhurtha Lagna and he can be in any house of Ati shubha or Shubha (in shubha he should not be in 6 8 12 houses if these lords are in their own houses).

2.The Moon Lagna Lord should not be in papa or Atipapa houses.

(Note this is what is explained in 21 Dosha about Moon being in 6 8 12).

Sights of Nakshatra used to qualify Moon.

GOOD SIGHT	HALF BLIND	3/4 BLIND	FULL BLIND
Krittika	Bharani	Mrigashira	Rohini
P. Vasu	Ardra	Ashwini	Pushyami
P. Phal	Makha	Ashlesha	U. Phal
Swati	Chitta	Hasta	Vishakha
Moola	Jyeshtah	Anuradha	P. Ashada
Shravana	Abhijit	U. Ashada	Dhanishta
U. Bhadra	P. Bhadra	Shatabhisha	Revathi

According to Brihaspati –If Moon is in Trikona or Kendra(see the papa and Ati papa for Kendra decision) and equally strong and if happens to be in any of the above 3 groups of Blind nakshatra, he shall not be bad in many of the activities.

Moon even if placed oddly in Muhurtha Lagna Kundali and if he is in the Shubha Navamsha or having aspect of Jupiter, Venus, Mercury. There are no evil effects.

If Moon is in 6th or 8th or 12th and if it is debilitated sign then there is no Dosha of 6th or 8th or 12th Moon.

But the debilitation should be within the stipulated degrees. That is within 3 degrees. (because after 3 Degrees he will be oriented towards his exaltation sign, will be in different sign zones gathering the qualities of sign).

The lord of the shubha Navamsha sign where Moon is placed, if aspects, either Moon or Lagna in Muhurtha Kundali, Moon will have positive strength to ward off all evils of Muhurtha. (Notes: Whatever Amsha will only speak of its effect in Rashi/Lagna Kundali not in Amsha as they are not 360° Zodiac charts. Amshas are quantification zones for planets to quantify in Lagna chart).

Despite dilution of his Shreshtatwa, being Madhyama or Adhama portions, he shall still participate in supporting fully with enthusiasm and to enjoy the mater under consideration if he has aspect from Gurutraya (Jupiter, Venus and Mercury).

Muhurtha Chintamani claims that most of the dosha like Ekargala, Upadrava, Paata, Latta, Jamitra, Kartari, Udayasta will get nullified if Muhurtha Kundali has a strong Moon (it does not say paksha guna bala of moon it says strength of Moon. Off-course it is an added qualification if Moon gets Shreshtatwa).

There is one more classical way to assess the condition of Moon whether he shall be enthusiastic to appreciate the Muhurtha under question.

Moon in degrees indicate Chandra Kriya, Chandra Vela, Chandra Avastas. When moon in the degrees as shown below in 3 tables, the psychological impacts can be studied relating to muhurtha. They are not the results of the Muhurtha. For example in 1st table the first portion from 0 to 0:13:20 it says Stana Brashta (that does not mean the Muhurtha is relating to that. The mind is not in his original state of mind it is in its low profile.) But for

the space restriction of the book I would have given all the psychological meaning to every item.

Based on the 3 types of Moon’s mood, that indicates by position of moon in degrees, the right selection is to be matched with the matter of muhurtha under consideration. This along with strength of Moon will give a fair psychological experiences the native might get through the activation of Muhurtha. This needs initiation and intuition power to grasp the right meaning and association with the Muhurtha.

For an easy reference the Ati Shubha, Shubha, Papa, Atipapa Planetary list is given for Each Lagna.

The nakshatra thraya (set of 3 nakshatra, like Ashwini, Makha and Moola) is considered for Tara Bala. This component of nakshatra thraya is also used in computing the sequence in Vimshottari Dasha.

Regardless of guarantee and gloat of other nakshatra, sign and host of other Dashas, prevalently the Vimshottari settles up on top.

In Gochara if we are seeing the current affairs of Planetary cabinet in Muhurtha chart corresponding to intergalactic time predefined, it also calls for observation of current trend set in the Vimshottari Dasha in the Natal chart of the Native.

It is logical to see one from Natal Moon the present condition with reference to cosmic time plan and the from Natal Lagna the fate trend through grand Vimshottari Dasha.

Therefore, observation current Dasha, Bhukti, Antra, Sookshma and Prana or at least up to the level of Antra that is 3 levels, with reference to the Native's birth chart would give fair view of his circumstances, mental condition and the trend of fate.

Best untold tips to study Dasha

(some of it are very secret not disclosed by anybody or not known to anybody:)

1.Apart from the Houses Dasha lord occupy and own, please look for his stars for example Saturn is Dasha Lord his stars are, Pushyami, Anuradha and Uttara Bhadra. Moon in any of these nakshatra commences the Dasha of Saturn.

The Dasha Lord's star is progressively moved from Moon. That is If a person is born in Pushyami Nakshatra, Saturn is Dasha Lord and this nakshatra is in Karkataka, that means the house represented by Karkataka counted from Lagna will be operative.

All 9 Bhukti, from Pushyami Saturn, Ashlesha, Mercury both are in Karkataka so Bhukti of Saturn and Mercury both operates the house counted from Lagna that represents sign

Karkataka. This house results will be predominant in addition to the lordship position association and aspect.

Next Bhukti is Makha of Ketu and P. Phalguni of Venus operates house indicated by Simha.

Next is one Pada of Uttara Phalguni the one quarter of Sun Bhukti operates in Simha and the ¾ period of Bhukti Jumps to Kanya that operates the related house. Nonetheless other designated house also to operate with predominant trend set in the house the progressed nakshatra is situated.

The Kanya as house still operates with Hasta in Moon Bhukti and it operates half the Bhukti of Mars being represented by 2 pada of Star Chitta in Kanya.

Mars of remaining 2 padas of Chitta Jumps to Tula and operates that house with rest half Bhukti period. Tula and its linked house operate by Swati nakshatra and Rahu will operate his entire Bhukti. Tula and its house still be under operation by Jupiter for about ¾ period of his Bhukti representing 3 padas of Vishakha.

Vishakha Jumps Vrischika to operate the remaining ¼ period of Bhukti with the concern hose by Jupiter.

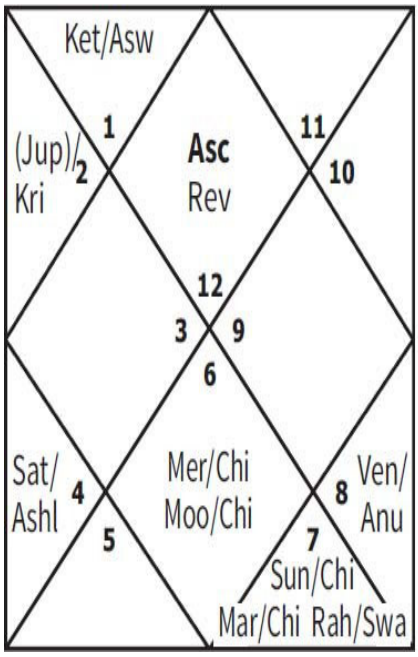

This has to be seen for all levels, counting from the Star that is operating Bhukti and further complete all levels.

2.Nonetheless, the principle of Nakshatra thraya will also be operative that means, the other houses where the said nakshatra falls in signs will also be operative if not explicit will have definite impact.

(If we are seeking Pushyami above operating the house represented by Karkataka with reference any Lagna, the Anuradha, and Uttara Bhadra, Vrischika and Meena as concerned houses will also be operative if not predominant.)

3.Dasha Lord will also operate the stars in which he is posited at birth time. If he is in the star say Bharani, he will be operating the houses of Venus Vrishabha and Tula that represents houses of particular Lagna.

4.All the houses under his aspect shall be involved in Dasha or other Bhukti and Antra periods. They may modify the Saturn's lordship or the results he is entitled to give or if those houses are stronger than the house he originally represents, may dominate in Dasha.

Asc Rev	Ket/Asw	(Jup)/Kri	
	Example - Male 22/10/1976 Hyd, D/B Saturn-Mercury 28-10-2019 to 6-7-2022		Sat/Ashl
	Ven/Anu	Sun/Chi Mar/Chi Rah/Swa	Mer/Chi Moo/Chi

5.For example, the Meena Lagna Saturn is Lord of 11 and 12 posited in Karka 5th house. The Moon is in Chitta Nakshatra. After Chitta, Swati, Vishakha, the Anuradha Saturn nakshatra starts in Vrischika, That means Saturn is operating 9th house. (the other two houses by Nakshatra thraya is Uttara Bhadra in Meena Lagna and Pushyami in Karkataka 5th house.) That means predominantly his Dasha will be 9th with focused on self and 5th house and children. Saturn aspects Kanya and the Kanya rashi is having exalted Mercury and the Moon who is dispositer of Saturn. Therefore 7th house (especially it being 10th to 10th) higher posts and dignity will be operative. He aspect 2nd house –the orientation of family and finance, then he aspects 11th house of gains. (all are true in the case of Native).

6.The Bhukti lord's behaviour shall be based on his relationship as per the Atishubha, Shubha, Papi and Ati Papi and the relationship with Dasha Lord.

7.Interestingly the dispositer that is the sign lord where the Dasha lord is posited in Birth Kundali, if transiting in good houses, the Dasha lord will be comfortable enough to pass on good results. If the Dash lord is himself oriented towards bad results, the transit of his dispositer in good house will reduce the bad effect of Dasha Lord. If both are Bad very bad results can be experienced. The same rule needs to be followed for Bhukti and further division.

8.The Dasha Lords transit position from Moon also gives a clue about the impact of Dasha on the mind. Similarly, Bhukti Lord. It is also essential to see the Position of Dasha and

Bhukti Lords in transit counted from his Natal position and co relate to Lagna position and Natal Moon (to know the mental impact).

These are some of the Dasha tricks that are more than sufficient to assess during Muhurtha.

A snappy reference to see the muhurtha day impacts, a tool is appended below that give an overall idea about the favourability of matter under consideration. This is named as Graha Chara (just to differentiate between Gochara, the name is given) that is the Muhurtha Planets on the Natal planets.

Soumya Sun (is a success planet and to name and fame. Keeping him for that matter, his cruelty is kept intact with relational matters.)

Horizontal planets are Natal planets indicating matters. The vertical planets are transiting on the Natal Planets activating results either positively or negatively.

Muhurtha day planets on Natal Planets

Below is Transit Planet	Sun

When Good/Bad both are cited, the Material aspect is good and personal relational bad. The words opposition and Stubborn indicate non-cooperation and hurdles. Its self-explanatory to understand how the muhurtha planets reacting to Native’s fate.

chapter 7

Thithi & Karna

Thithi is difference between the Longitudes of Sun and Moon. Approximately 12 Degrees makes one Thithi. The Sun position and the moon position will decide the difference between them. 180° apart they Moon is called Full Moon that is Poornima. When the difference is 0 it is called New Moon that is Amavasya.

Though many may be familiar with calculation of Thithi. Almost every software of astrology can give Thithi and the balance of Thithi correctly. You can use the recommended Divya Chakshu as it has a module for Muhurtha. The Thithi in detail is given.

The Karna (it is not Karana as many half-baked quotes) it is the activation not the reason. Karna is Half the Thithi i.e., 6 degrees each Karna. This is also given in he lists.

From 0 degrees difference, the moon going away from the Sun changing Thithi at every 12 degrees is Called Shukla Paksha Thithi. Once it crosses 168 degrees and up till 180 degrees it is Poornima.

Again, after Poornima Moon will be approaching the Sun reducing 12 degrees from 180 onwards it is called Krishna Paksha and when conjoins at Less than 12 degrees it is Amavasya.

Astonishingly the classical texts grants option to go in for Micro Thithi like Thityamsha, Muhurtha Thityamsha, Naadika Thityamsha. If the days Thithi despite being unfavourable, can go for the Micro division Thityamsha, further fine tuning by selecting Muhurtha Thityamsha or even Naadika Thityamsha.

I am quoting important shlokas from classical texts about Thithi:

In general people give much importance to first Nakshatra, Lagna, Chandra, yoga etc. but give lesser importance to Thithi.

Therefore, in this work, Thithi is given more importance.

The great Granthas also provide multiple alternatives to have the desired Thithi effect even in Thityamsha.

This divisions can be used for two diffrent purposes:

1.A Selected Thithi can be fine tuned to the Lagna time for a supporring Thityamsha of 1 hr 36 minutes and still it can be fine tuned for a 48 Mnutures of Muhurtha Thiti and upto to 24 Minutes of Naadika Thithi.

2.Alternatively select any of the Micro Thithi to fit in to best Muhurtha Lagna time any of the best micro thithi can be opted in the absence of a Thihthi witout a Dosha.

With the Balance Thithi refence from computer software, the Thityamsha, Muhurthamsha and Naadikamsha of Thithi can be derived.

I am giving an example Kundali basic detail from the software where the Balance of Thithi in % is highlighted for which the relevant Thityamsha, Muhurtha and Naadika Thityamsha can be found out.

Example Krishna Triodashi (Ju) (4.03% left)

that means 95.97% over

Under Triodashi that is 13th Thithi the last column is from 93.33 to 100 Therefore the balance 95.97 falls in Last Column where against Triodashi the Last column 15th from Triodashi is Dwadashi.

The Thityamsha of Triodashi during that time is Dwadashi. If Dwadashi is a prescribed Thithi this Thityamsha can be utilised.

Under Triodashi that is 13th Thithi the last column is from 93.33 to 100 Therefore the balance 4.07 (that means 95.93 is completed).

Up to 95 it’s Covered. Therefore, From Column 95.93, 96.86, 98.33, 99.18 & 100 % columns ae to be taken for Naadika Thityamsha of Triodashi.

1. Ashtami, 2. Navami, 3. Dashami, 4. Ekadashi, 5. Dwadashi –which are against Triodashi Thithi.

These Five Naadika Thithi can be used if they are prescribed for the matter under consideration, that will enhance the strength of the main Thithi to ward off any Dosha.

Condition: Options either to apply or dodge are to be thought of if the particular time has all the imperative segments and blends.

For instance, if an exclusion on or choice recommended is restrictive to the particular planning of Sunrise or the start or end of Thithi, at that point all the permutation and combination of segments should exist to apply or avoid the condition recommended.

Note: The qualities of Thithi also applicable to Thityamsha that is why it is mentioned as Thithi or Thityamsha. Under one Thithi all good Thityamsha will enhance the value of the Thithi. The same can also be substituted if main thithi is not desirable.

TYPE:- Poorna Ruled by MOO.

(There is a generalised assignment of rulership based on Nanda, Bhadra, Jaya Rikta and Poorna group. Nanda Ruled by Venus, Bhadra Ruled by Mercury, Jaya Ruled by Mars and Poona Ruled by Jupiter. The two planets who cause Thithi by their distance is left out with ruler ship of any Thithi. Note: However, they appear as deity for Thithi. For Saptami Sun is Deity and for Pournami it is Moon. The Amavasya Thithi is ruled by Pitru devata. These are all deities. Planets deprived of their rulership being the structural resource of Thithi, is absolutely illogical. Therefore, I am taking the dare step to assign lordship logically: Moon for Poornima as he has full paksha guna. That means he will play a crucial role in Muhurtha. On Amavasya the merger of dark Moon in Sun indicates the dominance of Sun that represents the deity Pitru. This is the reason on Amavasya Pitru tarpana is essential. This gives the power to Amavasya the rulership of Sun).

chapter 8

Vara

Before anything else to study in this chapter memorise that the Varadhipathi that is Day lord and the Hora Lord for Muhurtha Lagna Should not be in Enemy camp. (refer to Atishubha, Shubha, Pap Atipapa).

1.Vara or Hora:

Quick Hora Table - Add or Deduct the Sunrise Difference	
Hora Start Time	6-13 -2(
Sunday	Sun
Monday	Moo
Tuesday	Mar
Wednesday	Mer
Thursday	Jup
Friday	Ven
Saturday	Sat

1.Vara: -Vasishta Samhita/Siddhanta, Poulasa Siddhanta declares that Vara that is week day is counted from Sunrise to next day Sunrise. (Due to space constraint avoiding giving Shlokas for reference.

2.Vara Dosha harana : According to Chendeshwara- there shall not be any Vara Dosha after Sunset. (perhaps that is one of the reasons in Andhra most of the marriages takes place at night).

3.Activities: The activities preferred in a particular Vara if not available in comparison with other Muhurtha matched components, the suitable Hora from any day can be selected. All the Yogas of Vara +Thithi, Nakshatra combination can be considered with Hora lord to enhance the Muhurtha credits.

4.Condition: The Vara or Hora lord selected should be placed in good places from Muhurtha Lagna.

5.Note: Importance of Rahu kala purposefully ignored?

Rahu kala is not mentioned in any of the Muhurtha or Jyotisha text. But it is very much in vogue in Tamil Nadu and has spread in other part of the country. There are certain important matters that is missing in both Astrological and Muhurtha classicals.

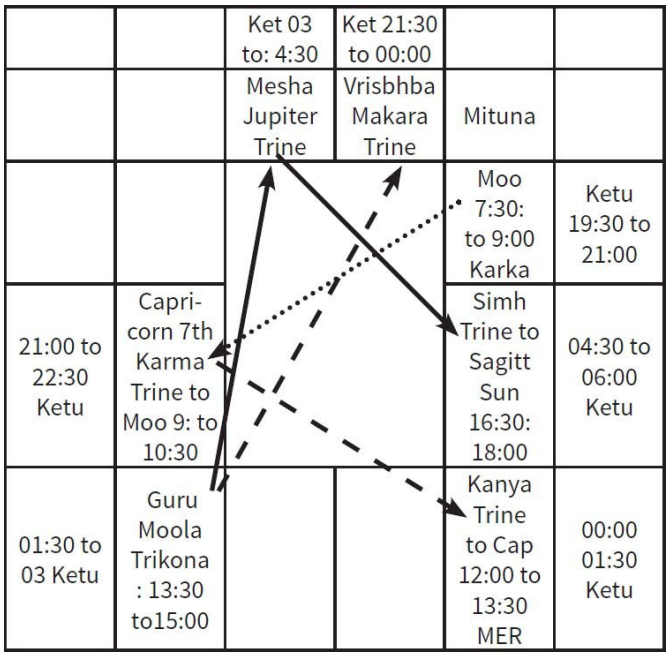

I experimented with Rahu Kala and found to be useful in commencing certain works. For example, It is very good for the Cinema, Photography, theatre and art works. It is good for buying vehicle.

It is good for Foreign transactions. It is good for psychological works. It is also good for Hypnotism and It is also good for Meditation and alternative healing matters. But only thing is it is to be used rightly with relevant Day.

I am giving a logical explanation how the computation is convincing in deriving Rahu Kala on each day. These are for material benefit on certain days. Where there is Rahu Kala automatically there should be a Ketu Kala just adding 12 hours to it.

I have fully explained in my Book Revelation from Naadi Jyotisha about the Sun trine and Moon Trine. Taking same Logic, I am elaborating the logic of Rahu Kala and the Ketu Kala.

Here I am using only Sun trine with the Moola trikona signs and Moon trine do not contribute any Moola Trikona sign. But it is essential to have the Karma trine as the Rahu is closely related to Karma of Practical Nature. Therefore, the 7th sign from Moon the Makara is taken as 2nd sequence. Moon sign Karkataka is taken as the whole of the effect of Rahu the illusion is on Moon.

IThe Duration of Day i.e., from Sunrise to Sunset is divided into 8 parts (if sunrise is @ 6 AM and sunset is @ 18 hr) the day duration is 12 hrs and each portion is 01 hr :30 min. In Gulika the 8th part is left without assigning to any celestial body. On contrary in Rahu kala the first part of the division of 1 hr 30 min is specifically ascribed to Moon that has special importance for human development activity.

IIRahu and Ketu are the two directions created by Moon's north and south converging focuses regarding the plane of Sun. Climbing north meeting point means shocks and modern musings of the brain. The Descending South converging point is recollections and withdrawal. Without these two interruptions, Moon encounters the present in its flawlessness. So, it needs some space without redirection. The initial segment of the division of day span of 01:30 is left for this reason.

IIIThe entire maxim is linked to Moon. In the absence of distracting forces the left out first part of approx. 1 ½ hrs is allotted to Brahma kriya (Achamana, Arghya, Gayatri & Anushtana).

	RAHU KALA Sunrise to Sunset
1	Considering 6 am as Sunrise - on Monday after 1 1/2-hour Kark
	Moon trine do not have any Moola trikona in its trine so Vrischi
2	Its Karma trine that is counting from Makara is considered for S
3	From Makara 5th Sign is Vrishabha i.e. of Friday
4	From Makara 9th Sign is Kanya i.e., Wednesday
	Now Moon trine no moola trikona - Moon Karma trine finished I
5	Jupiter Moola trikona is Dhanush: Thursday
6	From Dhanush 5th sign is Mesha Tuesday
7	From Dhanush 9th sign is Leo Sunday

Disclaimer:

Of-course the whole narrative about Rahu and Ketu Kala is the mathematical equation based on Gulika. Apart from this there is no authentication to support this argument.

In such a disappointing situation the only test is to put it in practice for its validity.

I started experimenting. A film person approached me and said that for the last 2 years he was trying to produce a TV serial and every time the moment muhurtha shot is done, the shooting would not proceed further and had to stop production. He wanted to check his birth chart to know whether he has the chance to produce and direct a TV serial. I asked him to give the dates of his previous muhurtha out of 4 occasions he could remember only recent two. I looked at them and then told him that when he plans next to take muhurtha from me. After a month he came to me. I fixed a Muhurtha on Friday at Rahu Kala. (of-course I selected a good Thithi and a compatible Nakshatra).

He commenced on the right Rahu kala and it went on well and he completed the serial.

More than 100 cases where I gave muhurtha to buy a vehicle on Friday in Rahu kala. All of them had good vehicles and have profited in many ways.

One of my relatives wanted to buy vehicle I gave them muhurtha on Friday at Rahu kala. But due to their own apprehension or half-baked knowledge about muhurta and jyotisha they declined the muhurtha instead blamed for having fixed in Rahu kala. They took a different muhurtha with their own personal consultant and purchased the Car. On the third they on their pilgrimage trip met severe accident but luckily non got hurt, but the vehicle completely smashed. Later they came back to me and purchased the vehicle as I said and from then they got better vehicles and every time they followed my muhurtha.

I have seen these timing and in many occasions these experiments proved to be nearer to truth. I dared to put it in writing this fact check formula. However, the authentication partially comes from South India where they consider Rahu Kala as bad and there is a ritual of lighting lamp on Tuesdays during Rahu Kala in front of Kartikeya or his temple in the pot made from reversing half cut portions of Lemon fruit. Each day the Rahu Kala and Ketu Kala has certain effect by avoiding or performing specific acts.

Nakshatra

Nakshatra of Day or Muhurtha Nakshatra Naadika Nakshatra

It’s a known fact that 27 Nakshatras repeat in a lunar month. The special quality of the Nakshatra also repeat in 24 hours. Each nakshatra rules for 48 minutes. This is the divided in to two parts as firs 15 muhurtas from Sunrise to Sunset and the Night 15 Muhurthas commence from Sunset to next Sunrise. This is what actually called Muhurtha. For a day a Nakshatra rules with the mattes that indicate and during a day each of 48 minutes Muhurtha also indicate the same matters as indicated by the nakshatra it rules. The Muhurtha have names of deities. Only thing is every day the Nakshatra of the Muhurtha starts with Ardra Nakshatra. On each weak day certain muhurtha are designated as Durmuhurtha that are given in Vara Chapter for easy reference. The 30 Muhurtha and its Nakshatra is given below for an at a glance perception.

However the Muhurtha is further divided into two parts as 24 Minutes Naadika and Each Naadika again represents a Nakshatra. The only difference is Naadika commences with Vishakha and the Last 3 Naadika both in Morning and Night are named after Jyotsna, Sandhya and Maitri.

The details of 27 Nakshatra are given. Ironically the classical texts give option to substitute unfavourable star of the day with a favourable Muhurtha star and Naadika Star.

Elsewhere I have quoted from voice of Rishis, that from Macro to Micro level the significations gain more powerful. In that Logic, the importance should be for Naadika first and then to Muhurtha and Lest to Nakshatra. It is therefore essential to consider in this order even the Tara Bala. Similarly the sequence existing in the Natal chart a hundred percent muhurtha chart for the Native's birth should also to be considered. Hope the readers are smart enough to get the logic behind this.

Options of Birth Nakshatra:

Since Birth happens in a particular Muhurtha, the Tarabala can be seen:

1.From Stronger out of Lagna Nakshatra (Janma) and Chandra Lagna (Nakshatra where Moon Posited) (as per Satyacharya).

2.Next is It can be from the Birth Muhurtha.

3.or Birth Naadika.

4.To consider muhurtha for non-living matters, the current Dasha lord's Nakshatra can also be taken.

(For example, if any material gains, he gets he would consciously enjoy when he reaches certain maturity stage that is indicated by Dasha. That is a planet operating at a particular age that has yoga for example house. This house is coming to him during the Dasha of the planet. That means the Nakshatra represented by that Planet. For example, if it is Jupiter Nakshatra any of three Nakshatras represented by Jupiter, Punarvasu, Vishakha and U.Bhadra stars will be operative. That means this Nakshatra is responsible for him to get the house. So, any matter that relates to house, will have better Tarabala with the muhurtha nakshatra, if Jupiter Nakshatras are considered.

Options to select Nakshatra of the Muhurtha Day.

For any of the Birth Nakshatra selected from above Birth Nakshatra options, following Nakshatra options for the day can be selected (This is as per classical texts).

1.The Day's Nakshatra.

2.The Nakshatra representing 48 Minutes Muhurtha (details given under each Nakshatra).

3.Th Nakshatra representing 24 minutes of Naadika (details given under each Nakshatra).

The Tara Bala is an exclusive system of connecting celestial configuration on the selected day to the Birth essentials. This certifies that the Muhurtha chart is well-linked to the native for whom the muhurtha is to be fixed.

Note: 1. Therefore, the word Nakshatra in this chapter or in any other chapter, if referred to Native it should be understood that it can be Chandra Nakshatra, or Lagna Nakshatra or it can be Muhurtha Nakshatra or it can be Naadika Nakshatra or it can be current Dasha Nakshatra of the native.

Note: 2. When the word Nakshatra is referred to with reference to the context of Muhurtha it should be understood that it can be Day's Chandra Nakshatra, or 48 Min. of Muhurtha Nakshatra or 24 Min. of Naadika Nakshatra, both are given under each Nakshatra. (But it does not include Lagna Nakshatra and question of Dasha does not arise).

I. FIRST GRADE NAKSHATRAS – FOR AUSPICIOUS TIME

Note : If The day's nakshatra is not suitable then take the following Muhurtha or Naadika Nakshatra at the time of their appearance.

Muhurtha, Naadika and Gandantha timings are based on 6 AM for Sunrise and 6 PM for Sunset. To get right timing of muhurtha compute Local Sunrise and Sunset Timings.

The Gandantha/Visha Gati shown in nakshatra is nullified.

By Soumya in Kendra or Lagna or Lagna Lord is having aspect with Soumya and Moon is in 11th, 4th and 10th, 5th, and 9th or being in Mrigashira Nakshatra.

Haala Hala Yoga is also called Nindya Yoga –However this applicable only to certain places.

Note: Vara Durmuhurtha given in Vara Chapter. Please check selected Nakshatra muhurtha is not in the time span of Durmuhurtha.

Count from Mesha to the Nakshatra of the Muhurtha Moon. Note this number. If this number equal to the any of the above 6 conditional numbers the Moon Nakshatra of the Muhurtha day is inauspicious to Marriage.

Like Thithi Vara Nakshatra, the option is also open for dividing each of the Yoga into 27 Micro Yogas:

This is the option given by Rishi Vashsita.

The 27 Nitya yoga has also Micro Yogas of 27 to each of this Yoga. Therefore, the option to select right yoga in the absence of favorable yoga of the Day or to fine tune them with additional good yoga during Muhurtha Lagna time. In order to make it convenient to read the micro Nitya Yogas a table is appended for easy reference.

It’s a good option to choose a good micro yoga even in a Bad Yoga.

Anandadi Nimitta yoga

It is based on 28 Nakshatra (that includes Abhijit) and 7-week days. On Sunday it starts with Ashwini. Monday with Mrigashira, Tuesday with Ashlesha, Wednesday with Hasta, Thursday with Anuradha, Friday with U. Ashada, & Saturday with Shatabhisha, Nakshatra.

The 28 Yogas have Bad Yogas and in Bad Yogas some are to be avoided for specific time given and some are to be totally avoided. The same is Marked in the Yoga Column.

However, All Dosha of Nitya and Nimitta Yogas are nullified if on the muhurtha day count from Sun Nakshatra to Moon Nakshatra happens to be any one of these numbers 4, 9, 6, 10, 13, 20 this will become Surya yoga which will ward off all Dushta Yogas.

chapter 11

Tara Bala

Definition Tara Bala:-

On the Day native Born it was indeed a Muhurtha:

Consisting of : Varsha, Ayana, Ruthu, Masa, Thithi, Vara, Nakshatra, Muhurtha, Naadika. Then the birth Moon commences a Dasha that progresses to subsequent nakshatras as the native grows up. His trend of Dasha is directly proportional to his mental progress entails him to prosperity or otherwise.

For all material achievement the dasha was responsible. Therefore the Nakshatra moved from Birth Moon till the current Dasha that needs to be considered for any material event stands utmost importance for matching of Muhurtha day's Nakshatra or Muhurtha Nakshatra or Naadika Nakshatra.

For all other matters, Any Nakshatra of Day he is born that is Moon Nakshatra or the Muhurtha Nakshatra or Naadika whichever is suitable can be matched with that of selected day for an event can be matched on that day's or Muhurtha or Naadika Nakshatra.

This Logic is endorsed: When they proclaimed that the matters prescribed in Nakshatra can also be performed in Muhurtha. They also endorse that What is prescribed to do in Vara can also be done in the same Hora on any Vara.

This sort of alternatives has been provided to Thithi with three Micro divisions as Thityamsha, Muhurtha Thityamsha, Naadika Thityamsha. There is also Micro division of Nitya Yoga repeating all 27 yogas in each of Nitya Yoga.

Ignoring or perhaps not understanding these subtle secrets and sticking to illogical old dogma is a crime unforgivable.

TARA PRADHANA OR CHANDRA PRADHANA

There are couple of beautiful shlokas that declares when to see Tarabala:

□□□□ □□□□□□□□□□□ (Tara Pradhana.-importance to Stars)

□□□□□□ □□□□ □□□□□□□□□□□□□□□□□□□ □□□□□□□□ □□□ □

□□□□□□□□□ □□□□□□□□□□□□ □□□□□ □□□□□□□□ □□□ □□□□ □

□□□□□□□□□□□□□ □□ □□□□□□□□ □□□□□□□□ □□□□□□□ □

□□□□□□□□□□□ □□□□□□□□□□□ □□□□□□□ □□□□□ □□□□ □

The gist of the shloka: From Shukla Paksha Pratipada to Panchami and from Krishna Paksha Ashtami to Amavasya the moon is weak due to paksha guna. So, Stars (i.e., his wives become strong). The stars are given importance. That is called Tara Pradhana. Therefore, it is essential that Tara bala is to be considered.

Since Moon is considered Paksha Guna weak, instead we take the Lagna Nakshatra. For Lagna the restriction of Paksha is not there. Therefore, in the event of weak moon, the Lagna can be taken into consideration.

□□□□□ □□□□□□□□□□□(Chandra Pradhana- Importance of Moon)

□□□□□□□□□□□□□ □□ □□□□□□□□□□□□□□□□□□□□ □

□□□□□□□□□ □□□□□□ □□□□□□□□□□□□□□□□ □□□□□□□□□□ □□□□□□□□□ □

The gist of the shloka: From Shukla Shashti to Krishna Ashtami, he is quite strong due to Paksha guna and he do not need the support of his wives (the stars). That means if the native has strong moon or the Muhurtha has the strong moon, there is no need for tallying with Janma Nakshatra. Then Lagna star has to be seen or any other star like Muhurtha, Naadika star or the Dash star of the native can be taken for linking the muhurtha chart.

Rishis have given Micro divisions for Thithi, Vara and Nakshatra. These are all the facilities to overcome the hurdles in the combinations among the main components.

The Nakshatra also plays a great role in Dasha as it is directly linked to Moon. Dasha starts from the Nakshatra where the Birth Moon is posited. From there on every Dasha progress the next Nakshatra. For example, if Born with Moon in Pushyami Nakshatra, the birth starts with Shani Dasha represented by star Pushyami. Next nakshatra is Ashlesha, that means Dasha progressed to Ashlesha indicating Mercury Dasha. In other words, the Star Ashlesha is in progress. Similarly, after completion of Ashlesha the star shifts to Makha indicating Ketu. That is operating Nakshatra is Makha and it operates Ketu.

Similarly, next Dasha operates through P. Phalguni star. Next U. Phalguni star operating Sun, Next operates Hast star representing Moon, Next is Chitta operating Dasha is Mars. So, the Nakshatra is the power behind the Dasha.

These Dasha periods indicate the maturity of the mind and indicates its capability to face or enjoy events. All the material aspects are due to developed skills and actions achieved through the stars who authorises the planets to indicate results.

That means all non-personal and material matters the Nakshatra of Dasha plays an important role. Therefore, it is clear and logical that it is not necessarily always the Janma Nakshatra to be considered for Tara Bala.

1.If Moon is strong (Chandra Pradhana) –(please see the Chandra bala chapter) and if he is having paksha guna bala. Janma tara is not necessary. Any other star from native's Muhurtha, or Naadika can be used to link for good tara bala from Muhurtha Chandra Star, or Muhurtha star or Naadika Star.

2.If Tara Pradhana that is Moon is has no Paksha guna bala. Then we have to go in for Tarabala. In such cases we have to check stronger among Lagna and Chandra in the birth chart and then look for Tara bala of Muhurtha day Nakshatra, or Muhurtha Nakshatra or Naadika Nakshatra.

3.If Muhurtha Lagna is strong Muhurtha Moon is also strong and according Native's Moon is strong –It is easy not to worry too much about Tara bala. Just Any star of Native that is Lagna, Muhurtha, Naadika which ever suits as Tara Bala to Muhurtha Moon star, Muhurtha star or Naadika star, best among these is sufficient.

4.If Tara Pradhana that means Tara bala is of prime importance. Then stronger among Lagna or Moon in Natal chart to be considered for the Muhurtha day Moon star. Again, if Muhurtha day Moon is strong by Paksha guna bala and also stana bala in Muhurtha, then any star from Chandra star, or Muhurtha star or Naadika star best among it should be matched for Tara bala.

5.Ultimately the idea is to make the Muhurtha chart positively linked to the native through all available stars that are operative at different levels.

6.For Assets, money, profession, society related progress and prosperity the current Dasha star of the native and its Tarabala to Stars of Muhurtha day any one among Lagna star, or Moon Star or Muhurtha Star or Naadika star is quite agreeable.

Note: Some texts advocate that even if the Tarabala not compatible, with certain remedies the muhurtha can be fixed. This is totally illogical it is not mere favourability it is a science to link the individual birth chart to a Muhurtha chart so that the native owns the Muhurtha day chart. This concept is totally missing with lots of misgivings.

(Note: The same argument holds good in Prashna Jyotisha other than the one in Prashna Marga. The concept of Aroodha by different methods involving the participation of client to link the Prashna chart to him is the secret in Prashna Marga. Where there is no such involvement, the Prashna chart is general and not specific to an individual. For instance taking number 108 is also a method to link Prashna chart to the client. Similarly the Muhurtha chart needs an authentication to individualise it a particular person for a purpose).

In order to fortify the strength of Lagna, the Navamsha of the Lagna will be an index. But much more than this it is essential to look for All the Soumya planets that is Lagna, Jupiter, Venus, Mercury and Moon are in Soumya Navamsha or they are in the Navamsha of Ati Shubha or Shubha house considered in Muhurtha chart.

chapter 12

Crew of Cruel and Cure

1.Guru Moudhya (11 deg on either side of SUN) and Shukra Moudhya (10 & ® 8): (why left Mercury Moudhya is not clear (14 and on ® 12 Deg).

Except for entry into old house, Pumsavanam, Seemantam Namakarana and Gharbhadana, all other auspicious activities are prohibited, including Homa, Deeksha, 1st time Pilgrimage, or visiting a temple in Kshetra in Guru and Shukra Moudhya.

Note: Those activities that are fixed like Namakarana, Annaprasanam that are time specific, Seemantam, are all to be done in specific Masa. For this Moudhya not applicable.

Note: For Marriage, House, and Luxury and Property matters, to be avoided in Shukra Moudhya.

Note: For Upanayana, Learning, Dharama Karya and Remedial poojas etc. avoid Guru Moudhya.

When both Guru and Shukra are in Moudhya avoid all activities.

2.Simha Guru:

4 Padas of Makha and 1st pada of P. Phal to be avoided in all auspicious mattes especially for marriages and Upanayana etc., The rest of the padas that is. 2,3,4 and 1 pada of Krittika has no Simha Guru Dosha. But a very few places in India may still avoid whole of Simha Guru.

3.Eclipses :- All auspicious ceremonies ae avoided on the day of Eclipses.

A.The Muhurtha Nakshatra in which the either Solar or Lunar eclipse occurs should be avoided: a) if the Eclipses is Ful 6 months b) if half eclipse for 3 months c) if it is quarter 1 month.

B.Other than Muhurtha Nakshatra if eclipse occurs:

a.If it is partial 3 days before and 3 day after it should be avoided.

b.If it is Full 7 days before and 7 days after it should be avoided.

4.Holashtaka: - Not applicable to many parts of India except Punjab some portions of Rajasthan and Himachal Pradesh.

It is 8 days from Shukla Ashtami to Holi Pournami. All auspicious activities are avoided.

5.Panchaka Rahitam: Add the numbers of Muhurtha day A) Thithi B) Vara, C) Nakshatra (From Ashwini), Muhurtha Lagna (From Mesha).

For the Total is to be divided by 9:

If the Reminder is 1 = Mrityu (Very bad for Marriage) (At any cost avoid this especially on Wednesday).

If the reminder is 2= Agni (very bad for House, Vastu, or Functions) (Avoid this for day Muhurtha avoid this on Tuesday).

If the Reminder is 4= Nripa (Not at all good for Jobs and works) (Avoid for day Muhurtha and avoid this on Sunday full).

If the Reminder is 6 = Chora (Bad for travel or changes) (Avoid this for Night Muhurtha & on Tuesday full avoid).

If the Reminder is 8 = Roga (Bad for Upanayana) (Avoid this for Night Muhurtha on Sunday full avoid.

(Note If Lagna and Moon are strong this check is immaterial).

7.Swa-Nakshatra or Birth Moon Nakshatra

Celebrations connected with Agriculture, Annaprasanam, Tonsure, Aksharabhyasa, Upanayana, Learning pursuits. Taking responsibilities, or occupying a post, chair or swearing in ceremonies, Purchase of properties, and related activities like Vastu, all that is essential for personal development and progress can be done in Janma Nakshatra.

Avoid last rites offering (yearly) (Shradha), all female activities like Gharbhadana, Pumsavanam, Seemantam, Ear boring, Medication, Travel, Marriage and haircut and anything connected to Body.

8.Seasons

Vasantha Ruthu – Meena & Mesha – Chaitra & Vaisakha (Spring).

Ghreeshma Ruthu -Vrishabha & Mituna – Jyeshta & Ashada(Summer).

Varsha Ruthu – Karka & Simha – Shravana & Bhadrapada (Rainy).

Sharad Ruthu – Kanya & Tula - Aswija & Kartika (Autumn).

Hemanta Ruthu – Vrischika & Dhanush – Margashira & Pushya (Late-Autumn).

Shishira Ruthu – Makara & Kumbha – Magha & Phalguna (Winter).

Tresses (Locks, blocks) seasons are Sharad Ruthu Hemantha and Shishira. Rest are celestial seasons.

In fact, the Dakshinayana starts from Pushyami Nakshatra in Karkataka that is Shravana Masa, all the vratas (Holy practices) to get divine blessings starts from this month (before the tresses Ruthu starts).

Shravan Somavara Vratam, Mangala Gowri Vratam, Shravan Shukra Varam, Varalakshmi Vratam, Raksha Bandhan, in Bhadra pada Ganesh Nava Rathri, followed by Durga Nava Rathri (in between Pitru paksha to get ancestors blessings). Then the Deepavali etc.

The Uttarayana – is for the self-development (meditation, Japa, religious readings, practices etc) – with the back ground of accumulated blessings.

9.Ayana

Having said about Ayana it is important talk about Muhurtha. Uttarayana is preferred for auspicious acts like Upanayana, Marriage, Vastu, House related works and as said earlier any spiritual practices. The entry of Sun which starts the Uttarayana there is an ingress prohibition of 6 hrs 24 min from the start. (Ingress detailed in the next chapter The crew of 21 Cruelty and cure).

10.Adhika Masa and Kshaya Masa

Adhika Masa

Propitious exercises like House warming, development, Oath-taking, Namakarana, Upanayana, Aksharabhyasa, Marriage, and related exercises, are totally disallowed in Adhika or Kshaya Masa.

11.Adhika Masa :- Sun will travel in a Rashi and the Moon conjunct with Sun the Amavasya closes a Month following day Pratipada begins a new month in that sign. The difference in moving of Sun and Moon there will be aggregated days in around 3 years' time this record for a roughly equivalent to a Lunar month. That there will be two Amavasya in a sign. This adds to the augmentation of the Month that initiates in that sign called Adhika Masa.

12.Masa Kshaya

In longer period the fractional difference also accounts for missing a month that contributes to miss an Amavasya in a sign that do not accounts for a month in that Sign which is called Kshaya Masa. No activities as said above are eligible to be performed in the Masa Kshaya.

13.Pradosha

First 3 hours of Chaturdashi, and 4 ½ houses in Saptami and 6 hours in Triodashi. No auspicious activities are to be performed during this Pradosha period.

Saptami and Triodashi if occurs after Sunset the first 9 hours of the night is Pradosha.

The duration of 3 hrs 24 minutes from Sunset is also Pradosha. During this period 1 hrs 12 minutes from Sunset is to be avoided for all Night vratas and activities.

14.Unblemished (Really ?) Lagna /Muhurtha : –

a.Abhijit Muhurtha : Example 25th December 2020 Sunset –17:49:06 and Sunrise is 6:43:36 Difference = 11:05:30 hours –Mid portion is half of it : 05:32:45 add this to Sun rise time: 06:43:36 + 5:32:45 = 12:16:21 is Noon: From this Minus 24 minutes of half the muhurtha= 11:52:21 is Start of Abhijit Muhurtha and then add 24 minutes to the Noon time 12:16:21 = 12:40:21 is ending time of Abhijit muhurtha. Abhijit muhurtha on this day: 11:52:21 to 12:40:21.

b.At the commencement time 11:52:21 if chart casted it should be 4th from Sun. That means for this Lagna in 10th Sun will be there.

In this example if we cast a chart at 11:52:21 we get Meena Lagna 03:40:55 and Sun in Dhanush. It matches. In muhurtha only 48 minutes is counted which is logically convincing. But taking the entire sign Meena as Lagna to last long just a Copple of minutes less tha 2 hours is not convincing.

Nonetheless, in this muhurtha/Lagna Marriages are not favoured as it is Mid noon timing. Even the Upanayana is also not allowed. Journey to the south and Wednesdays are prohibited.

15.Godhooli Lagna : It’s an execution infrequently or selectively preferred and has benefits attached to it for people of ignored societal status or deprived of least mental skills. It’s the opposite of Lagna the 7th house when it operates as Lagna that is in the evening. The setting sign being Lagna the concept itself a disagreeable. However, this Lagna is preferred for those who have disregard for traditional, cultural and disciplined methodology of events like Marriage and other auspicious activities. This could be used for Love marriages, and activities that do not have sanction from the right scriptures.

All said and done, with lots of restriction this can be used as indicated in the earlier paragraph avoiding Moon in Lagna or in 6 8 12. Jup,Ven, Mercury should not be in 6 8 12. Mere selecting 7th sign does not qualify, it should not be before sunset especially on Thursday. It is unfavoured after sunset on Saturday.

Both the unblemished Lagna has no convincing logic to perform any auspicious activities. But it is in vogue and invariably resulted in negative effects.

16.Lagna and Moon should not be same sign :- There is no exemption to it. It has to be maintained under any circumstance.

The relevant chapter Thithi, Vara, Nakshatra Yoga all are having specific doshas and their exemptions. Most of them get eliminated by mere strong Muhurtha Lagna and Moon.

chapter 13

Ekavishanti Dosha

(21 Doshas)

Exclusively for marriages.

1.Panchanga Shuddhi –Thithi Vara Nakshatra, Karana Yoga.

(Refer to each of these chapter for dosha and also exemptions).

2.Soorya Sankramana

(Solar ingress): Sun will be moving from one sign to another sign in 30 days. The day and time of entry in to a sign called Solar ingress. The Sun entry into Mesha and Tula is called Vishu .

The ingress in Vrishabha and Simha, Vrischika and Kumbha is Vishnu pada.

In Mituna and Kanya, Dhanur Meena is called Shadseethi.

In Karkataka it is called Yama Yana (Dakshinayana) and lastly his entry into Makara it is called Soumya Yana (Uttarayana).

6 hrs 24 minutes before entry and 6 hrs 24 minutes After the ingress is Evil. This should be avoided. Take the local sunrise time.

3.Papa Shadvarga(evil Hexa-set) : The concept here is totally different. It does not talk about any placement. It only looks at Lagna based on its degree it finds in rest of the 5 Vargas, whether it has gone to an Amsha of Soumya or Krura. If the Lagna in Amshas have gone to a sign and that sign lord if Krura then Lagna is supposed to have gone to Krura Amsha. If it is in Soumya sign, then it is in Shubhamsha’.

Shadvarga

1) Rashi 30 degrees, 2) Hora 15 degrees, Drekkana 10 Degrees each, Navamsha 3.20, Dwadashamsha 2.5 Degrees, Trimshamsha 1 Degree.

For example, the Lagna as on 12th January 2021 at 15:07 at Hyderabad it is:

i.Vrishabha Lagna: 19:19:51 Vrishabha the lord of the sign is Venus who is “Shubha”.

ii.The Lagna has gone to 2nd hora –which happens to be in Sun hora Sun is Papa. Therefore, it is in Papamsha.

iii.In Drekkana the Lagna has gone to Kanya the lord Mercury is “Shubha”.

iv.In Navamsha the Lagna as gone to Mituna whose lord is Mercury who is “Shubha”.

v.In Dwadashamsha it has gone to Dhanush and the Lord is Jupiter who is a “Shubha”.

vi.In Trimshamsha it has gone to Meenamsha and the Lord is Jupiter who is “Shubha”.

So, except in Hora all other 5 are Shubhamsha and therefore the Muhurtha Lagna is clean.

4.Ku Navamsha

1.Makara, Kumbha, Mesha and Vrischika being Papa signs their Navamsha is called as Ku Navamsha.

2.The first half of Dhanur Rashi being animal sign (up to 15 degrees).

3.The 9th Navamsha even if falls in Soumya Navamsha it is considered as Ku. Navamsha. But if it is Vargottama Navamsha then there is no Ku Navamsha Dosha.

4.Rahu and Ketu are Tamas grahas if they with any planet in one pada of nakshatra, even if it is a sign of Soumya, irrespective of which Navamsha they go together being in same pada, the planet is supposed to be in Ku Navamsha.

Exemption: All the above dosha gets nullified if Muhurtha Lagna is strong especially influenced by Jupiter, or Mercury or Venus, or if he Moon is placed in 11th to Muhurtha Lagna.

(Note: Ku Navamsha based on the Cruelty and Tamasa grahas, it has nothing to do with the Shubhatishubha or Paapatipapa lordship designated for each Lagna. it is clear here that the Amshas are only based on Planetary qualities not based on Bhavas.

Muhurtha part is clear in both Navamsha and dealing with Shadvarga.

Both are restricted to see the position of Muhurtha Lagna. There is no reference to other lordships position in Amsha confusing them as bhava.

(My comment (duly authenticated by sages) : It could have been formidable structure if these were extended to find out all the planets effect to assess the overall strength of a Muhurtha. For example, if cruel were to be in Amshas of signs that forms as 3 6 11 in Muhurtha chart. While Soumya fall in Amshas of signs that form as 1 5 9 and 4 10 that happens Shubhatishubha to Muhurtha Lagna. This even extend to signs falling in 6th or 8th as Shubha to Muhurtha Lagna.)

5.Udayasta Shuddhi : (Specially for marriage/partnership- See marriage Muhurtha in Muhurtha chapter). - Lagna and 7th house in Muhurtha Lagna.

a.Lagna lord occupy or aspect Lagna.

b.Or Lagna Lord is placed in Kendra to Lagna. If he is in 7th, he shall aspect Lagna. If he is Soumya he shall improve 7th also.

c.Krura Lagnadhipathi should not be in Kendra. He can be in Upachaya Sthana(only for material aspect).

d.At least he should aspect in the birth chart his Navamsha sign or he is vargottama.

e.Or the sign of his Navamsha in the Rashi chart is Upachaya(for only material aspect) stana to him in the births chart.

f.The Lord of Navamsha where the Lagna lord posited, if that Lord in birth chart occupy or aspect Muhurtha Lagna.

For 7th house:

a.A Soumya in 7th that aspects Lagna - equally there is Udayasta Shuddhi.

b.A planet in 7th in Navamsha is own Amsha or vargottama or the lord of the Navamsha sign is in birth chart occupy or aspect 7th house.

c.If the lord of 7th is Krura if he is in the Navamsha of Lagna, or if he is in Swa Navamsha, or vargottama it is good.

d.7th house should not be having Krura planets.

6.Kartari yoga : If the Muhurtha Lagna, or the sign where Moon is placed are having Papa and Tamasa graha on either side of the Lagna or Moon sign. Then it is Papa Kartari.

The Kartari yoga forms only when the planet in 2nd sign in retro motion and planet in rear sign is not in retro motion. This certifies that Rahu or Ketu in 2nd sign automatically support Papa Kartari if any one or both Sat or Mar is in the Rear sign (12th sign). On the contrary Rahu or Ketu in 12th without any other planet, cannot form papa Kartari even in 2nd both Sat and Mars are posited.

7.Bhrighu Shataka:- Venus in 6th house from Muhurtha Lagna is an evil, except, if that house is of Moon, Sun or Dhanus or if Venus is debilitated (it should be between 15 Deg to 27 Deg) This is also for marriage.

But it should take into consideration for any matter connected with Venus, like Vehicle, property and luxury purchase or planning of entertainment program or business.

8.Kujashtama – in 8th house of Muhurtha Lagna Mars is dangerous.

Exemption: For odd Lagnas 8th house being friendly house there is no Dosha applicable only to matters of external nature. For any other auspicious matters avoid 8th Mars.

9.Avoid Moon 6th 8th 12th to Muhurtha Lagna.

Exemption: If moon is Shuklapaksa or in the Soumya Amsha or having aspect of Soumya there is no dosha for Moon in 6 8 12.

Logical extension : Since Bhavas are being mentioned, I have the privilege to extend it with simple Parashara rules:-

That the 6th since Shubha stana to Even sign Lagna Moon can be in 6th. Similarly 8th and 12th both are shubha Sthana for odd sign Lagna Moon can also be here.

10.Ashtama Lagna : in marriage the 8th Bhava of Native from Lagna or From Moon should not be the Muhurtha Lagna. (either from bride or from groom).

Exemption :

In their Natal charts: if the Lagna/Chandra Rashi happens to be odd sign that is for Mesha, Mituna, Simha, Tula Dhanush, Kumbha the 8th house happens to be friendly sign. They can be Muhurtha Lagna or Chandra Rashi.

11.Visha Gati: - These are already given with exemptions in Thithi, Vara, & Nakshatra, chapter (Please refer these chapters).

12.Durmuhurtha: - it is explained in Vara and also in Nakshatra as muhurtha. (refer to Vara chapter or Nakshatra chapter).

13.Sagraha Chandra – Moon with any planets:- Moon should be alone and strong. Exemptions – 1. Even if they are conjunct degree wise but or in different signs it is not Sagraha Dosha. 2. Moon with Jupiter or Mercury no Dosha. 3. If Jupiter aspects Moon or if Jupiter is strong and is in Kendra to Lagna there is no Sagraha Dosha for Chandra. 4. If the moon is conjunct with any other planet and if Moon is strong then no evil.

14.Gandantha – exemptions given in respective chapter of Thithi Vara and Nakshatra. Anyways, the strong moon will ward of evils of Thithi Gandantha, Lagna Gandantha by well-placed Guru. Abhijit and Godhooli muhurtha (not a muhurtha as we have seen above) will have no Gandantha. If Muhurtha Lagna and Moon are strong no Gandantha at all.

15.Ekargala or Karjura :- It relates to 27 Nitya yoga in Yoga chapter. The evil yoga from that – 1. Vishkamba, 2. Atiganda, 3. Shoola, 4. Ganda 5. Vyaghata 6. Vajra 7. Vyatipata 8. Parigha & 9. Vaidhriti.

How to see : including Abhijit (that forms between 276:40:00 to 280:53:20. Between U.Ashada Last pada and a portion of Shravana), count from Sun nakshatra to Moon Nakshatra.

List of 28 Nakshatra

1	Ashwini	8	Pushyami	15	Swati	22	Abhijit
2	Bharani	9	Ashlesha	16	Vishakha	23	Shravana
3	Krittika	10	Makha	17	Anuradha	24	Dhanishta
4	Rohini	11	P. Phal	18	Jyeshta	25	Shatabhisha
5	Mrigashira	12	U. Phal	19	Moola	26	P.Bhadra
6	Ardra	13	Hasta	20	P.Ashada	27	U Bhadra
7	P.Vasu	14	Chitta	21	U.Ashada	28	Revathi

First Method of Ekargala : Count from Sun occupied Nakshatra to Moon occupied Nakshatra. For example, to day January 1st 2021 the Sun is in P. Ashada nakshatra and Moon is in Pushyami. The Nitya yoga is Vishkamba a bad yoga. From P. Ashada to Pushyami the number is 17. It is an Odd Number. Similar to this on any of these nine evil yoga day if counted from Sun nakshatra to Moon Nakshatra if number counts to odd numbers it is called Ekargala.

Exemption :We can overcome this by avoiding day Yoga and conveniently adopt Micro yoga that is not among these evil Yogas at the time of Muhurtha.

Second Method of Ekargala : Nine evil Yogas each one denotes a Nakshatra. 1. Vishkamba-Ashwini, 2. Atiganda- Anuradha, 3. Shoola-Mrigashira, 4. Ganda-Moola 5. Vyaghata-P.Vasu 6. Vajra - Pushyami 7. Vyatipata- Ashlesha 8. Parigha-Makha & 9. Vaidhriti-Chitta.

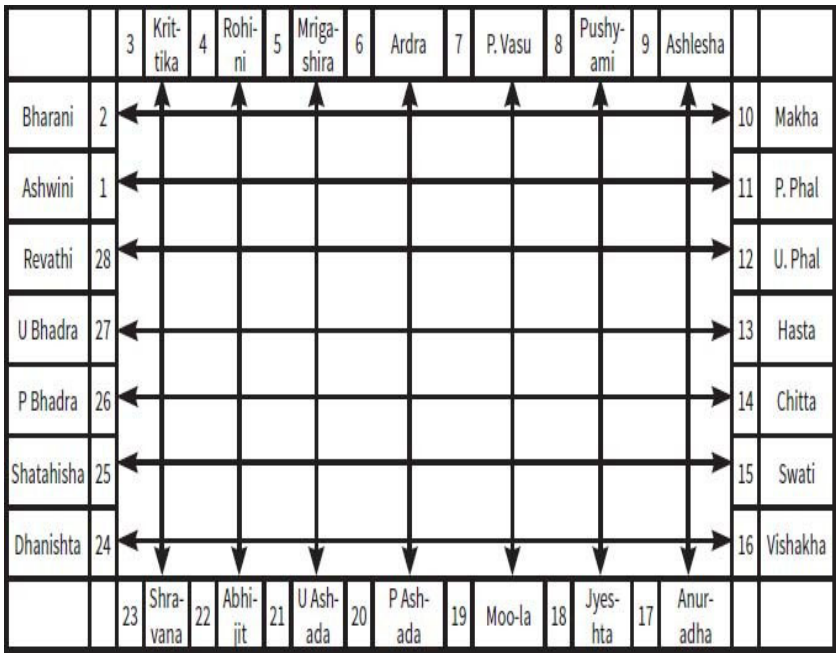

On the day of any of this evil yoga put that Nakshatra that is indicated by the yoga on top and then on the right side vertically write down the next 13 Nakshatras in descending order. After 14th shift them to left side of the Evil denoting nakshatra and write down rest of the 13 nakshatras in ascending order from bottom. If sun and moon are in the same horizonal plane of two nakshatras then it will be Ekargala.

17	Anuradha	SUN MOO	12	U. Phal

16	Vishakha	SUN MOO	13	Hasta
15	Swati	SUN MOO	14	Chitta

It is said that it is seen in auspicious ceremonies like Marriages etc., I think this could also be essential in Partnership activities. However, the importance is totally reduced as this shall be null and void with strong Sun and Moon.

16.Vedha Evil:- 1. Sapta Shalaka :

It is for the Nakshatra of Moon on the day of event especially for Marriages if posited any one of the nakshatra in the above table and if any planet or planets sitting in the exactly opposite direction as marked with arrows in the figure above it ends up as Shalaka Vedha and it is to be avoided.

Exemption: Muhurtha Lagna Lord is placed well and having influence of Guru thraya this Dosha is negligible.

17.Bhukampotpaatadi

A.Soura dosha : Bhukampa, Ulkapata, Brahma Danda, Dhwaja sputa, Dhooma sputa, Vyatipata sputa, Parivesha sputa, Indra Chapa sputa, Upaketu sputa: These are all called evils forming from Sun.

If sun is strong and having well placed, having good aspects and being in good Amshas, none of these points affect any muhurtha. A table and narration followed to give all these working. An example date as muhurtha is used to compute.

B.The table for first 4 Soura dosha.

	Computaton of Soura doshas		
	Frist January 2021 if it is Muhurtha Day:

3	Brahma Danda (10 G = 4 hrs evil)	from 83:44:00	+2
	For this	83:44:00	
	Add:	2 rashi and 20 deg	80
4	Dhwaja Sputa (if afternoon dosha)	163:44:00	

C.If you add 4 signs and 13 degrees to Sun longitude on Muhurtha day it is Dhooma sputa example 247:04:00 + (120 + 13) 133 = 380:04:00 i.e., 20:04 of Mesha).

D.From 360 degrees deduct Dhooma sputa 20:04 = 339:56:00 is Vyatipata.

E.Add 6 signs to Vyatipata i.e. 339:56:00 + (6 x 30) = 180:00:00 = 519:56:00 = 159:56:00 is Parivesha.

F.Deduct this Parivesha from 360 degrees: 360:00:00 -159:56:00 = 200:04:00 is Indra Chapa.

G.Add 12 degrees to Indra Chapa i.e., 200:04:00 + 12:00:00 = 212:04 is Upaketu.

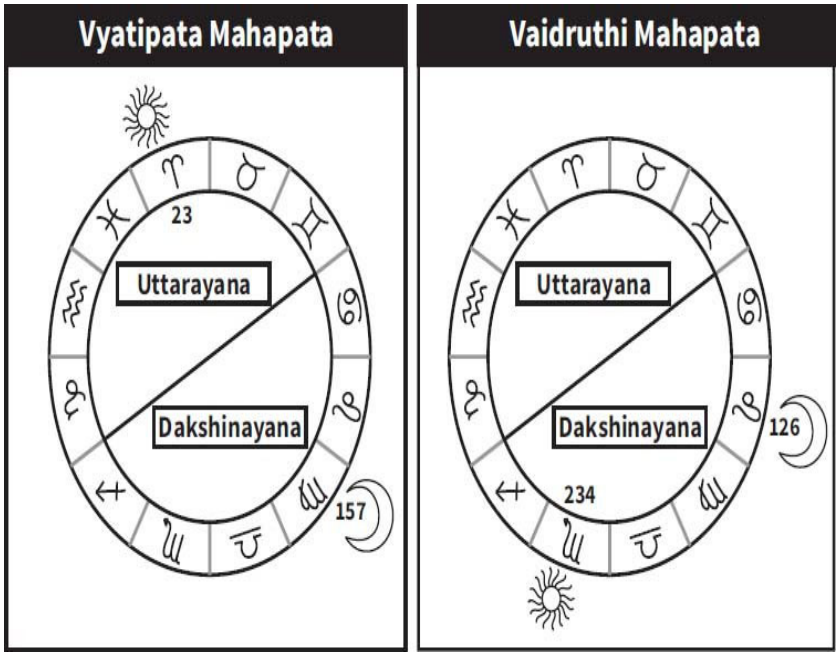

All of these dosha are eliminated by having a strong Sun.

18.Krura samyutha Dosha : Krura samyutha dosha:- For marriage: the nakshatra occupied by Sun its previous and the immediate next Nakshatra is to be avoided as muhurtha Nakshatra. However, if instead of day's nakshatra if we are going for any good Muhurtha nakshatra or Naadika Nakshatra this Dosha can be avoided.

19.Akaala Garijija Vrishti:. Toronto, Tsunami, Tornado, Cyclone periods to be avoided for auspicious activities like marriages, upanayana etc. Un-seasonal rains with thunder and lightning not when it is in normal raining season.

20&21.Mahapata: Vyatipata Mahapata: Vaidruthi Mahapata

Exemption: These 21 Dosha is exclusively for marriage. Just glance through, many have exemption. Ultimately look for Yogas on any muhurtha day. If there is no good yoga on the day, find any good yoga formed by Thityamsha, Hora, Muhurtha or Naadika Nakshatra at the time of Muhurtha. That will ward off all the evils of muhurtha.

For all muhurtha: 1st Requirement is Good Thithi, 2nd Good Lagna, 3rd Good Moon, and support of Soumya that is Gurutraya.

Six-point clarification before going into fixing muhurtha.

i.Ravi Yoga will be caused if the Moon's Nakshatra is 4th, 6th, 8th, 10th, 13th and 14th nakshatra counted from the Nakshatra where Sun is posited. All evil yoga like Bhukampa, Ulkapata, Brahma Danda, etc and any evil Yogas where Sun or Sunday is involved will be null and void with this Ravi yoga.

ii.Exemption: All evil yoga will be nullified if there is a favourable yoga. –Thithi +Vara and Vara + Nakshatra evil yoga applicable only to Nepal and Bengal not much importance in India or other places. According to Vasishta rishi no evil Yogas are functional at night muhurtha. Avoid Siddha yoga and Amrutha siddhi yoga both occurring on Muhurtha day but it has no authentication from rishis. The Evil Yogas by Thithi + Vara + Nakshatra mostly considered for travel. Other auspicious activities it has no effect.

iii.Shoonya Masa, Lagna, Thithi and all dosha of Thithi and many explained in Thithi Vara and Nakshatra in common are to be avoided in Madhya desha (That covers, Agra, Aligarh, Rajasthan, Delhi, Haridwar, Ayodhya, Lucknow, Kanpur, Dehradun etc,) Other places it has no effect.

iv.Lagna Rasi and Nakshatra doshas mentioned are specifically for north eastern provinces and Malavya Desha (Madhya Pradesh state and the south-eastern part of Rajasthan) desha. Not for southern part of the country.

v.Most of the Mrityu, Dagda yoga, Kuyoga from combination of Thithi Vara Nakshatra are applicable only to Central Asian belt, Bengal and Eastern places.

Irrespective of places all such Evil Yogas last for only 3 Gati that is 1 hour 12 minutes only from Sun rise. Hence avoiding this time all those Yogas can be used in Muhurtha.

vi.Jamitra Dosha : Because 3 7 11 or papa stana, any planet going to Papa stana. But a Soumya has the power to make good the house in which it sits. By any logic it cannot weaken Lagna. But in muhurtha, it is called Jamitra Dosha. But it is debated by many rishis. Many of them have hailed Soumya in 7th. It sounds logic because in the same Muhurtha texts the muhurtha Lagna is bridegroom. The 7th is bride. By this logic both Lagna & 7th should be strong. This happens a Soumya if sits in 7th. But the very negative thought has its seeding. For this there is another ruling that nullifies this Dosha. Deduct the Lagna longitude from the planet sitting in 7th and divide it by Navamsha pada. That gives the Navamsha number from Lagna where the planet is posited. If it is in 55th Navamsha then it should be considered as Jamitra Dosha. Little less or more than 55th or in any other Amsha it is not Jamitra dosha.

The wellbeing of all other house is only to support the Muhurtha Lagna. The Kona houses are to increase good Yogas the amicable Kendra houses are to support welfare and if inimical hardships to be faced.

Fatal failures are foreseen through if 6 8 12 houses that are not linked to Kendra or Kona. 3 11 places are considered good for cruel planets and if 6th and 10th house are purely papa stana to Lagna then they are also good places for cruel planets.

Soumya planets are good in Kona and friendly Kendra places.in 3 11 and 6th and 10th papastana cruel do not harm. (not that they do good).

At some level some of the text says 7th is house of wife (should this not be Lagna for her). Then why Jupiter or any Soumya if posited there should be evil. The logic fails here.

Therefore, I am of the opinion that this is not to be taken seriously as long as Jupiter Venus or Mercury in 7th will aspect Lagna that strengthen Muhurtha Lagna.

Yet follow the options:

However, one concept that 55th Navamsha from Lagna that falls in 7th counted from Lagna if any planet is here that could be dosha according to some. (that means by degrees it is not in 55th then there is no Dosha).

Another Jamitra is 55th Navamsha from Moon if happens to be 7th or 14th Nakshatra from Moon. It is Jamitra Dosha.

However, there are exemptions; Exalted Moon, or exalted Jupiter in 7th no Jamitra Dosha.

So, if benefic planets can be in 7th but they should be strong. If they are in own Amsha or Vargottama or in if they are in the Nakshatra of Soumya graha or if they are Rahu or Ketu nakshatra where the nodes are situated or associated with Soumya graha, then also no Jamitra Dosha.

Ultimately it is the strength of the Soumya planet that is posited in 7th matters. Any other benefic planets aspects 7th where a planet is situated as Jamitra dosha, then also the evil is mitigated. If Sun is exalted no Evil.

Convincingly explained and acceptable exemptions are also indicated.

chapter 14

Rules for Muhurtha for Various Activities

1.Primarily the Muhurtha Lagna must be strong.

2.Next the Moon Must be strong.

3.The Thithi or Thityamsha should be right one without any blemish.

4.Then the most important factor is Naadika. It is important to choose tha 24 minutes of the Muhurtha that will have a powerful factor to carry on the muhurtha in all its power.

5.It is important that the Gurutraya Moon and sun are well placed. If ill placed should have aspects of Jupiter or Venus or Mercury.

6.The two Krura planets Mars and Saturn – should be in such places where they do not become strong.

7.Rahu and Ketu should not be in Lagna or with Moon. If Rahu is in 3 Ketu will be in 9th, if Rahu is 6th Ketu will be in 12th, if Rahu is in 11 Ketu will be in 5 or vice versa. Therefore, there is no logic in saying Rahu Ketu should be in 3 6 11. For relational matters Both Rahu and Ketu should not be in 1 5 9 and 7th.

8.But either of them should not be in 6 8 12 (subject to as explained in Lagna chapter earlier) Any planet in these places is a problem.

9.11th Moon in night Muhurtha and 11th Sun in Morning Muhurtha will ward off all evils.

10.Sign quality-based obstructions

The applicability and its exemption are common to all matters. (These are not serious in fixing as Muhurtha Lagna as it is taken care of with all strengths. However, the meaning and exemption are given which might have shades at certain times, not warranting any serious repercussion).

11.Blind Rashi: (Impediments either in relational, personal or material aspects in due to ignorance or negligence).

1. Day time Blind Rashi = Mesha, Vrishabha and Simha. 2. Night time Blind = Mituna, Karka and Kanya. Mesha and Simha better avoid in marriages and relational matters. Vrishabha if Moon is strong no problem. Night time: Mituna, Karka, Kanya – If Moon and Mercury are strong Blind effect will not be there. Aspect of any one out of Jupiter, Venus, Mercury or Moon will ward off all weakness of Rashi.

12.Deaf Rashi: 1. Day time: Tula and Vrischika, 2. Night time: Dhanush and Makara Night time. (May not yield to good advices resulting in all-round loss) Well placed Moon, Jupiter, Venus or Mercury or if Lagna is having aspect of any of these all-Deaf qualities are nullified.

13.Lame Rashi : Day time: Kumbha, Night time Meena (Limping as the meaning, there could slow progress or cause loss of wellbeing and may affect relationships, or the progress may be limping). Anyways strong Lagna, Moon, Jupiter, Venus Mercury influencing Muhurtha will ward off all evils.

14.Sheerodaya Rashi (straight forward courageous-or good quality (material) (a positive sign of strength) Mituna, Simha Kanya Tula Vrischika Kumbha (Day powerful).

15.Pristhodaya Rashi (Progressively prominent- (materially not a good quality)) Mesha Vrishabha, Karka Dhanush Makara (night powerful).

16.Ubhayodaya Rashi (a matter of adjustment, rectification, reconciliation) Meena (day and night powerful).

17.Urdhwa Mukha : A sign the Sun has left behind is Urdhwa Mukha Rashi (the works that gets a top and make rise and progress or the one atop).

18.Adho Mukha : Sun transiting in A sign is Adho Mukha Rashi (something that needs digging, searching, mining, searching).

19.Triyag Mukha : The Sun yet to Enter into a Sign is called Triyag Mukha Rashi. (the one that need encounter- face it, compete with).

20.Selection of Nakshatra: 3 GRADES: (this for quick reference for every muhurtha. For details, please go to Nakshatra Chapter).

a.1st Grade Nakshatras for all auspicious activities :- (Muhurtha day Moon should be in any one of these Nakshatra).

1. Ashwini, 2. Rohini, 3. Mrigashira, 4. P. Vasu 5. Pushya (Not for Marriage), 6. Makha, 7. Uttara, 8. Hasta, 9. Chitta, 10. Swati, 11. Anuradha, 12. U. Ashada, 13. Shravana, 14. Dhanishta, 15. U. Bhadra, 16. Revathi (for details of these Nakshatra verify the Nakshatra chapter for selected Nakshatra).

b.2nd Grade Nakshatra : (if no alternative day available these are permissible) for auspicious activities with restrictions:- (Muhurtha day Moon can be in these Nakshatras alternatively).

1. Ardra, 2. P. Phal (for only medicine taking - Not for marriage or auspicious activities), 3. Vishakha, 4. Jyeshta, 5. Moola, 6. P. Ashada, Shatabhisha, P. Bhadra.

C.3rd Grade Nakshatra to avoid: (Moon in these Nakshatra – Definitely to be avoided for all auspicious activities. They are used for evil acts.)

1. Bharani, 2. Krittika, 3. Ashlesha 4. P. Phal (Repeated as it is useful for evil acts).

21.Most important factor, for any muhurtha it is better to select a good Naadika of 24 minutes in the given Lagna.

22.Shubha Yogas : Check Yogas forming 1. Thithi+ Vara, 2. Thithi+ Nakshatra, 3. Vara+ Nakshatra or Yogas with 4. Thithi+ Vara+ Nakshatra, (except two siddhi Yogas occurring same day) all given in three chapters Thithi, Vara, Nakshatra. This yoga can form with Micro division of Thithi called 3 Thityamsha + Hora + Muhurtha Nakshatra or Naadika Nakshatra.

23.Nitya yoga : If it is good yoga it is good. If there is bad yoga then, look for Micro Nitya yoga as explained in the chapter and can use that good Micro yoga at the time of

Muhurtha. On the contrary for good Nitya yoga this micro yoga will support and enhance the dignity of Muhurtha.

24.Karna : Normally most avoidable are only Vishti or Bhadra or Naga Karna. This is to be avoided under any circumstances, for this also Last 1 hour and 12 minutes of this Vishti Karna is also allowed for auspicious works. Shakuni is only advised for Medical treatments.

25.Most Important. Avoidable Thithi Vara or Nakshatra in case gets unavoidable to help strong Lagna and Moon, by then the Thityamsha, Muhurtha Thithi, and Naadikamsha Thithi, Hora, Muhurtha/Naadika Nakshatra can either substitute the Avoidable Thithi, Vara, Nakshatra. or then again in case of ideal Thithi, Vara, Nakshatra, selection of best of this micro divisions at the time of Muhurtha will enhance the muhurta esteem.

Marriage - Match making a dappled v/s applicable theory and revised applicable theory

Read this: The entire match making and the detailed muhurtha process for marriage is an orthodox (sanatana dharma) culture where in the marriage of a daughter was celebrated much before the girl gets menarche (first menstruation cycle). Scholars like vyasa, mariachi Vatsya, all supported marriage before first menstruation.

There are three stages of the girl before Menstruation and each stage i.e., Gauri stage if marriage to be done we have to see Guru Balam, Rohini stage we have to see, Soorya Balam, and Kanya stage we have to see a Muhurtha Chandra Balam without having any Dosha.

Girl after Menstruation is called as Vrushali. For Vrushali if marriage to be performed only good Muhurtha Lagna to be fixed. No other Muhurtha condition need to be seen. Vyasa also recommend good Chandra and Tara Balam in addition to Lagna. (in fact, girls attaining 12 years of age not married being at father's place, are eligible for marriage by her choice).

In the modern trend there is no child marriage; – in fact its all-delayed marriage. Many complicated tabulations are eased out. A good Lagna, good Moon good Thithi is much more than sufficient. With optional nakshatras for Tara bala will tag the muhurtha auspicious. With micro division of Thithi Vara, Nakshatra the combination at the time of Muhurtha may shower with good yoga also.

Similarly, the classical texts exempt match making if :

a.a. for Love marriages, b. if girl and boy have already met, c. if it is arranged through marriage bureau d. if there are more female children only for first daughter the matching has to be seen. e. if the girl and boy as seen each other before marriage even if there is no love. (that means for selection of girl if boy goes there, only the parents should settle it), if boy and girl see each other, no match making necessary. Similarly, for 2nd or subsequent marriages no matching is to be seen.

b.But in this present world, of-course the tedious method of match making has no meaning in the absence of fundamental values with cross culture mutual agreements for marriage. This is the basic reason why the conventional match making that had psychological also DNA coded information based on signs and Nakshatra, is outdated now. It is totally half-baked knowledge and the ego satisfying stupidity to hang on to such methods unless there is still traditional values and marriage age as prescribed by shastras.

c.With highly western adaptation, slightly attached with certain entertaining cultural activities influenced by cinematic song and dance orientations, the sanatana spirit is evaporated. It is absolutely necessary to develop a psychological study through Astrology.(in fact Astrology is the highest science of psychology).

In the world of progressive modern culture, the trend of living together with psychological, societal and economic adjustment is the criteria that dominates the institution of marriage.

Not undermining the classical match-making but distancing from it due to shift in cultural and traditional inheritance, the modern method that logically helps to diagnose the psyche through Astrological Analysis is formulated. Though it is not difficult for an experienced Astrologer to follow the rules given here, it is better, if they have read my book “Remedies” in which Chart Analysis is given.

Houses to study: in both bride and groom

1st House Instinct, Character and ability.

4th House Comforts and Mental status.

5th House Wisdom, Progeny, Pleasure.

7th House Union, Partnerships and combined Celebrations.

9th House Religion culture Belief systems.

2nd House The family, Additions, Accumulations Wealth- Speech.

11th House – Fulfilments – Desires – Enjoyments.

1st house basic – instinct, character and ability :

Cruel afflicting will weaken the matters. Own lord indicates self-made and confident person and may be very selfish and thinks independently with right thoughts. Jupiter influence will grant wisdom and culture. Venus pleasantness and Mercury adjusting nature. Rahu is wild wish and imaginative and Ketu is rejecting ad depressive.

If lord goes to Ati shubha = he will have all the capacity to manage the life. In Shubha can overcome any difficulties. In Papa will face problems, and in Atipapa will become weak to handle situations and may ruin self.

4th House – Comfort and Mental Status.

Cruel afflicting will disturb comfort zones and increase mental stress. Rahu makes to think unusual and leads to illusions. Ketu is depressing. Lord if goes to Ati shubha can overcome from adversities, In shubha it may take longer time or little hardship to overcome. In Papa – will feel miserable, and in Atipapa there shall be no mental peace and comforts.

5th – Wisdom, Progeny, Pleasure:- Cruel will cause stupidity and in ability in progeny factors, and displeasures. Lord if goes to Ati shubha can overcome adversities and gain wisdom, strength and pleasures. If Goes to Shubha may need little extra effort to gain back. In Papa will lose the ability factors, and in Atipapa will be stupid and devoid of strength.

7th – House is the house of – Union, partnerships, combined celebrations. If afflicted by cruel there shall be displeasures and dis satisfactions and obstructions. If Lord goes to Ati shubha, can overcome all hurdles and can have metal better lives, business etc., In Subha houses, little misunderstandings, and some displeasures may crop up but will overcome with management. In Papa houses there shall be difference of opinion, fights, and character related arguments. In Ati papa there may be discord and displeasure and unethical matters involved and may lead to break up.

9th House – Religion culture Belief systems and other’s involvement. If afflicted wrong disbeliefs and wrong inputs and notions and cultural differences. This may cause disagreement with others. There could be 3rd person involvement. If the Lord goes to Ati shubha, maintains right culture and belief systems, avoids interference. In shubha there could be slight difference of opinion or change in belief system. May orient towards other’s consent. Yet maintains, right culture and religious thoughts. In Papa house may reject and may have differences with religious thoughts and may allow for others opinion. In Ati papa house there could be total change and may even discord religion or belief system. May involve 3rd person into life. However, for any relationships to be legalised, the 2nd house as family acceptance is a must.

2nd house : The family, Additions, Accumulations Wealth- Speech. Afflicted by cruel will create rift in family restriction and obstructions in additions and wealth. There could be harshness or dull speech causing disinterest in family matters. Rahu creates too much of expectations and Ketu cause depression. Both nodes support distancing factors. 2nd lord if goes to Ati shubha houses, the native may have power to overcome and manage the entire 2nd house. In Shubha house with little difficulties or with help can overcome any situation and build up good effects of 2nd house. In Papa house unnecessary tensions and problems in family. In Ati papa there could be discord in family and problems in family. If linked to 9th there could be another commitment.

11th - House – Fulfilments – Desires – Enjoyments.- If afflicted by cruel failures, dissatisfactions, and unhappiness. If the Lord goes to Atishubha houses then manages to overcome the hurdles and tries to enjoy, if he goes shubha house there could be enjoyments from illegal and unacceptable means. In papa house there could sin factors or illicit matters. In Ati papa house, may have no pleasure and may forego all happiness and fulfilments.

Sun, Rahu, Saturn – as cruel if afflict simultaneously at least two supporting each other will create discord in the matters.

In material matters Papa and Atipapa may not give bad effects, but will give very bad effects in relational and health matters. Similarly, cruel when conducive for material matters, definitely will not support relational and health matters.

With these formulas the matching can be done by analysing both bride and groom’s chart.

Ati Shubha and Shubha Lords if gets associated with Papa and Ati papa Lords.

They will acts like Papa only. Whereas the Papa will act like Shubha that might help only in material matters.

Note: 12th house is taken by many as Bed-comforts. It is a house of sleep. It is 6th house from 7th. It indicates unsanctioned sensual acts. Considering it for marriage is illogical. Similarly people take 8th house as Mangalya stana. The Mangalya is the longevity of Husband in a female chart. Then it is should be 8th from 7th and also 7th itself as Lagna of Husband. In any chart 6th, 8th, 12th are Dustana and especially not good for relational and health matters.

chapter 15

Muhurtha

Marriage

Masa: Vaisakha, Jyeshta, Magha, Phalguna, is excellent, Kartika and Margashira is Medium. In southern parts of the country Sun in Meena Chaitra masa or even when sun enters Mesha the Chaitra can also considered.

Avoid : Just go through the Ekavishanti Dosha and hardly a few unavoidable dosha are to be maintained.

Lagna: Tula-Vrishabha, Kanya –Mituna, Simha –Karka, Dhanur-Meena and Kumbha.

Moon and Lagna : Should not be same.

Avoid Muhurtha Lagna as 8th house to Janma Rashi. Lagna and Moon sign should not be same.

In marriage the 7th house vacant and if it has aspect of Moon or any one Soumya planet it is very good.

Thithi - Krishna Paksha Ashtami to Amavasya to avoid. For other Thithi go through the Thithi chapter for all other exemption and good Yogas. In case Rikta or Chidra Thithi are to be selected avoid the specific time given their in. Except on Krishna paksha Ashtami and Amavasya, any other Thithi (4th 8th 9th 14th and 15th) if it is essential to perform due to good Lagna and Moon then select good Kshana Thithi of 1 hours 36 minutes or 48 minutes Muhurtha Thithi or 24 Minutes of Naadika Thithi.

Vara:- All weekday except Tuesday and Saturdays are good. Under emergency conditions, if Marriage need to be performed on Saturdays, in Sun, Moo, Mer,

Jup, Ven Horas are permitted.

Nakshatra: - Any of the nakshatra from the 1st grade list is best. In absolute essential situations 2nd grade list of nakshatra can be used.

When there is strong Moon and good Lagna the Tarabala if occurs for selected nakshatra from Janma tara or Lagna star whichever is strong that will be fine. Else, the couple's Muhurtha, Naadika Nakshatra can be taken up and link to Muhurtha Nakshatra that falls as 2nd, 4th, 6th, 8th is best (people say 9th is also Parama Mitra tara. But better restrict to even number rule. If the days nakshatra is not falling in even numbers, then take Muhurtha Nakshatra of selected day or the Naadika Nakshatra of the muhurtha day, any of these matching would be fine. The same principle can be adopted for Tara bala for any of the matters of Muhurtha).

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

The newly married couple entry into house.

(This nothing to do with Vastu or any other house warming ceremony).

Predefined : within 16 days : After marriage up to 16th day any day without looking for any of the Muhurtha credentials can enter into house. Except on Tuesdays any day is good to enter into a house. Any good Lagna is sufficient. In case they are not entering into a house within 16 days, then they can select the first year or any odd years up to 5 years it is essential to see the right Vastu details and muhurtha for entering in to new house.

Gharbha dana muhurtha (first night)

Lagna: I reinstate that the Lagna will always indicate the main matter. It is the muhurtha for a Jeeva to come into womb.

Avoid any planet in 8th house.

Having said about family. It is absolutely essential to avoid cruel in 2nd house or avoid Ati Papi in 2nd house. It is suggested that 2nd lord is in Ati subha houses or in Shubha houses

(provided the 6th, 8th, 12th of shubha group not in their own house). Avoid Lagna at the time of Sunrise and Sunset.

Chandra –Should be strong –again have the check list and at least Moon should gain 50% strength. Avoid any planet with Moon.

Thithi: Poornima Amavasya, Krishna Ekadashi (bahula Ekadashi) to Shukla Pratipada is Vratha Thithi, Krishnashtami, like wise masa Ganesha Chaturthi, or any Thithi specifically meant for auspicious practices are to be omitted involving fasting partial or full day. Please go through Thithi Chapter and select a good Thithi. It is also advised to search for Kshana Thithi, Muhurtha Thithi and Naadika Thithi to give more strength to Thithi for a best possible conception. (Alternatively, Kshana, Muhurtha Naadika Thithi if all three are best selected, any evils in Days Thithi can be removed).

Avoid partial or full Grahana periods. Avoid on the Thithi that is linked to parents/grandparents death anniversary Thithi. Avoid All major adversities, like Adhika masa, Vaidhriti Vyatipata and Parigha etc. (no exemption) On Shukla dwadashi the Bhadra tithi is also good.

The 4 stira Karnas are to be avoided.

Vara: Except on Tuesdays all week days are good. Saturday is mediocre. But by selecting a good Hora this will become strong day. In fact, on any day if the hora is also of Soumya it is very good.

Nakshatra : Avoidable Nakshatra: Ashwini, Bharani, Krittika, Ashlesha, Makha Jyeshta and Moola. Rest of the nakshatras are good.

There is no necessity of any Tara bala:- Selecting a good Naadika time matching with Lagna will be very auspicious.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Krtrima Grabha Dana

Artificial insemination-Pregnancy / child birth:

Present-day science has explored artificial methodologies for pregnancy and even gone to hire external wombs. Strategically, the study of jyotisha and muhurtha specifically outfits with its tremendous information to cover the circumstances of usage of innovations for human assistance. There are 18 listed processes. To fix up muhurtha 3 comprehensive cycles are selected.

1.Manual semen infusion of a mother with father’s sperm,

2.Artificial insemination of a mother with provider sperm,

3.Artificial insemination with egg and sperm patrons, using an intermediary mother.

1.Manual semen infusion of a mother with father’s sperm,

Ayana: Uttarayana (the very seed to construct a seat to Jeeva is exposed to the outer world first and then gets back to its original state.) Therefore, the Journey of soul is back to its Karma from this world to another world. That is why Uttara (later part) Ayana Journey.

Ruthu: Sharad, Hemantha, Vasantha.

Masa: Aswija, Kartika, Margashira, Pushya, Magha, Phalguna, Chitra Vaisakha.

Lagna : Mituna, Kanya and Vrishabha, Meena, Karka.

When Vrischika and Dhanush can be used?

Venus should not be combusting. Venus should get aspect of Jupiter or Saturn. Sun, Mars, should be in 3 or 11. Venus retro linking Mercury or Mercury retro Linking Venus.

Avoid Mesha, Simha Tula Makara and Kumbha Lagnas.

Thithi: Pratipada, Dwitiya, Tritiya, Panchami, Shashti, Saptami, Dashami, Ekadashi, Dwadashi, Triodashi, Poornima.

Vara : Sunday, Monday, Wednesday, Thursday, Friday is good. Avoid Tuesdays and Saturdays.

Nakshatra: Ashwini, Rohini, Mrigashira, Pushyami, Makha, U.' Phal, Hasta, Swati, Anuradha, U.Ashada, Dhanishta U. Bhadra, and Revathi.

2.Artificial insemination of a mother with provider sperm.

Ayana, Ruthu and Masa same:

Lagna: Vrischika, Dhanush, Makara, (Vrischika is natural 8th house indicating other than origin. Dhanush and Makara have two different elements sharing 50% each, Dhanush is half human half animal, Makara is half water half animal. This dualistic nature is considered.) similarly Mituna is dual sign, Kanya and Meena are dual signs. All these can be Lagna.

All other same as above.

3.Artificial insemination with egg and sperm patrons, using an intermediary mother.

All the components are same as per 2.

Lagna : Dual signs Mituna and Kanya are predominant. Rahu should be in one of the signs of Mercury. Mercury should get linked to Saturn or Jupiter. Any one out of Mercury, Saturn Jupiter should link Moon by aspect or by retro. Friday Mercury Hora or Wednesday Jupiter Hora or Thursday Moon Hora if it is done in night. The day lord or Hora lord in the Muhurtha chart should not be in 3, 6, 8, 12.

Pumsavanam

Purpose: it is to avoid all obstruction or evil effect on the child in the womb and to grow healthy and smooth delivery. This is to be performed for the first conception. It should be done before completion of 3rd month of conception.

Lagna:- Avoid Lagna of Simha and Vrischika.

It is essential that Jeevakarka Jupiter is strong. Lagna devoid of any cruel planets. If there is any cruel aspect, any one of the Gurutraya or Moon should aspect Lagna.

5th house should not have any cruel influence by occupation or aspect. But if any one of Gurutraya or Moon aspect will ward off the evil effect. 5th Lord if in Atishubha houses it is good. If the 6th lord 8th Lord and 12th Lord in shubha group do not occupy their own houses, then 5th Lord can be in Shubha houses that makes 5th house strong.

4th house : It is essential that the pregnant lady to have good mental strength and happiness. Avoid cruel in 4th or 10th. If any cruel aspect on 4th house, at least any one Gurutraya or moon should have aspect on 4th. 4th Lord in Ati shubha houses gives good mental strength. In Shubha houses also it is good provided the 6th 8th 12th Lord in that group are not occupying their own place.

2nd house: It is the food what the pregnant lady eats that matters most to the growth of the child. Cruel afflicting will make her crave for unhealthy food. But at least one aspect from a Soumya will make her to overcome such craving conditions. It will be easier for her to avoid bad craving and develop good food habits if the 2nd lord is in Ati shubha houses and off-course in Shubha houses also, subject to placement of 6th 8th 12th lords in their own houses.

Good Micro Yogas forming at the Muhurtha Lagna will ward off many such negative effects on Bhavas involved, and will give strong position for development of child and happy delivery.

Thithi: Chaturthi, Chaturdashi, Amavasya Thithi are prohibited. Any best out of the rest can be selected. It is advised that Chandra Paksha guna bala has more than 60%.

Vara : Tuesdays to be avoided.

Nakshatra:- Ashwini, Rohini, Mrigashira, P.Vasu, Pushyami, Hasta, Chitta, Swathi, Anuradha, Moola, U. Ashada, U. Bhadra, Shravana, Shatabhisha, Revathi are

excellent. (Any of the Muhurtha indicated by these nakshatra and especially Naadika of these Nakshatra are fantastic if coincides with Lagna).

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Seemantam

Purpose : It is the psychological delineation of women hood transforming to be qualified for motherhood. The baby inside shall develop receptors and every input to mother shall have bearing on the child. (This like Abhimanyu getting the secret of chakravyuha through mother while she listens to Krishna). The celebration involves Kalasha, Udaka shanti and sometimes Homa. Vishnu sahasra nama and reciting of divine stotra are also a part of this function. A psychological process of pleasantness and celebrative mood is created, with dress codes bangles and other Mangala dravya. The saffron is given by husband to wife for eliminating phlegm in the chest and clean the entire process inside the body. The blessings from family members and elders are most important.

Irrespective of religion by a psychological point of view these are essential factors. Minus rituals the advices given by modern doctors convey the same spirit.

Lagna :-(importantly it is after 1 hour 12 minutes of sunset) It is same as Pumsavanam as said above. By Lagna strength computation, see that Lagna gets maximum strength (much more than 60%). It is absolutely necessary to avoid any cruel influence on Lagna.

The 9th house should be devoid occupation by cruel. In fact, better to avoid any planet here. Aspect of Jupiter Venus, Mercury (especially if Mercury Lagna and Mercury in 3rd will aspect 9th) on 9th will be good. 9th Lord going to Ati shubha is good. In Shubha houses it is good subject to trika lords in their own houses.

Yogas: If good day Yogas are available it is good. Else can select Micro Yogas if any forming at the time of Lagna (Thityamsha + Hora + Muhurtha or Naadika Nakshatra).

Naadika : Always it is better to select a good Naadika time for the Lagna.

Chandra:- The most important factor – Should be very strong. It is preferred that higher the Paksha guna bala it is better besides being strong.

Thithi – Avoid Pratipada, Shashti, Ashtami, Dwadashi (of either paksha) and Amavasya.

Vara: - It is best to select Friday, Thursday, Monday, Wednesday (especially in Venus, Jupiter, Moon hora).

Nakshatra: All the nakshatra said in Pumsavanam can be selected.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Jatakarma

Immediately after the birth of child the father should take bath and donate cow etc (in the absence of it, donate an idol of cow made out of Gold, Silver, Copper, with proper Dakshina to a priest.) It should be done before umbilical cord is separated from the child. But it is not possible to do it so urgently, it is to be done on 11th day not before that. If cannot be performed on 11th day.

Select

Lagna: - Meena, Karkataka, Kanya, Tula is primary, and Dhanush, Mituna and Simha is secondary. Mesha Vrischika and Kumbha to be avoided. Makara is least.

Thithi: Avoid Chaturthi, Navami, Pournami, Amavasya,

Vara : Monday, Wednesday, Thursday, Friday.

Nakshatra : Ashwini, Rohini, P.Vasu, Pushyami, U. Phal, U. Ashada, U. Bhadra, Hasta, Swati, Anuradha, Shravana, Dhanishta, Shatabhisha, Revathi.

Avoid Guru Moudhya and Shukra Moudhya.

Tarabala – for Father's Janma nakshatra (this is connected with the birth of child and his Vamshaoddhara or Kanya dana Punya). Therefore, Janma Nakshatra or Lagna Nakshatra whichever is stronger to be matched for the day's nakshatra. Best is Saadhana Tara, Next is Kshema Tara, 3rd is Sampath Tara Least is Mitra Tara.

Dolarohana: Credle ceremony

It is to be performed on 12th day for male child for female it should be on 13th day. In such cases no need to see any muhurtha for these days. Other than these days muhurtha need to be seen in 1st month or 3rd month or 5th Month.

Lagna:- Vrishabha, Mituna, Karka, Kanya, Tula, Dhanush, Meena.

Ashtama Shuddhi (8th house is favourable to Odd Lagnas, if this happens to be a debilitated sign for a cruel planet then that cruel planet can be here. Similarly, any shubha planet here do not cause 8th Dosha. Please refer to the Dignities of house and lord explained earlier. However, it is better to avoid any planet here.

Thithi: Krishna paksha -Dwitiya, Tritiya, Panchami, Shukla paksha - Saptami, Dashami and Triodashi.

Vara:- Monday, Wednesday, Thursday, Friday.

Nakshatra:- Ashwini, Rohini, P. Vasu U. Phal, Hasta, Chitta, Swati, Shravana, U. Ashada, U Bhadra. Revathi.

(counting from Sun posited Nakshatra first 5 nakshatra and Last 7 nakshatras are good. This is an alternative).

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Namakarana

It is to be performed on 11th day. Whatever other inputs, it is sanctioned by shastras that 11th or 21st day is best for Namakarana.

In case if it cross 21 days then within a month on odd days select a day for example 23, 25, 27 29 day of the month (not English calendar 31st date).

Based on the letters denoted by pada of Nakshatra the name is to be selected for Janma nama. It is there in the Nakshatra Chapter.

If Lagna is stronger than Moon then the name should start with the letter denoted by Lagna lord as per table given below.

Sun	□	□	□	□	□	□	□	□	□	□	□	□
Moon	□	□	□	□	□	□	□	□	□□	□□□		
Mars	□	□	□	□	□□□							
Venus	□	□	□	□	□							
Mercury	□	□	□	□	□							
Jupiter	□	□	□	□	□							
Saturn	□	□	□	□	□							

Lagna :- Dhanur Meena preferred for boys, Tula Vrishabha for female, 2nd option is Sunday for Boys and Monday for girls, However Mercury houses Mituna and Kanya and Saturn Houses Makara and Kumbha is better to be avoided. (because Mercury is close to Sun, a weak planet for name. Sat is opposite to Sun for name and fame). 10th house should have benefic aspects. 9th house should be vacant.

Moon :- Select a strong Moon (excluding Amavasya if he has 50% Paksha guna bala is sufficient) but should strong in Chart. (Look for Lagna and Chandra strength in the beginning chapters).

Thithi to Avoid :- Chaturthi, Navami, Amavasya Pournami.

Vara: - Thursday, Friday, Monday, (Sunday and Wednesday least preferred). I would rather prefer Sunday in Moon Hora. Or in any other day Sun or Moon hora is preferred.

Nakshatra: - Ashwini, Rohini, P.Vasu, Pushyami, U. Phal, U. Ashada, U. Bhadra, Hasta, Swati, Anuradha, Shravana, Dhanishta, Shatabhisha.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Annaprasanam

This is a prime activity in muhurtha shastra. 10th and 12th Month is actually prescribed for first external diet to be fed for the male child.

Anna means the home cooked food. This develops the immune system and the entire life will have good health. Alternatively, it could be in the 8th Month or at least 6th month and never earlier than that. All that tinned milk, advertised food for child everything leads to unhealthy and weak immune system.

If it is female it should be 9th 11th month is best or at least in 7th month.

The month decision is based on cultural and family tradition.

Lagna:- Vrishabha, Karkataka, Dhanur Meena Lagnas are best. However, in the absence of right Lagna other signs can also be considered if 10th house is not having any planet. (Note this concept is based on the argument that 10th represents Shodasha karma, of-course for all Shodasha karma including marriage 10th Shuddhi is a must).

The meaning of Shuddhi is that there should be no aspect or occupation of cruel in 10th. This is ok if 10th house is from the Ati Shubha group. If 10th house is from papa group definitely there should be a Soumya planet in it or an aspect from Soumya planet is a must.

Alternatively, if the 10th Lord from this papa group if posited in Kona then also 10th gets strength.

Thithi: - Avoid Pratipada, Chaturthi, Shashti, Ashtami, Navami, Shukla Ekadashi, dwadashi, pournami and Amavasya. Alternatively, Shukla Chaturthi, Shukla Dwadashi Thithi can also be selected for muhurtha.

Vara : Thursday, Friday, Monday and Wednesdays are good or these hora on Sunday. Avoid Saturdays and Tuesdays.

Nakshatra :- Ashwini, Rohini, Mrigashira, P.Vasu, Pushyami, U. Phal, U.Ashada, U.Bhadra, Hasta, Chitta, Swathi, Anuradha, Shravana, Dhanishta, Shatabhisha, Revathi.

Alternatively, P.Phal, P.Ashada, P.Bhadra, Makha can also be considered and at times even Ardra and Vishakha nakshatra can also be taken into account.

In such cases or any other nakshatra that has Tarabala but not in the prime list, then look for Muhurtha Nakshatra or at least 24 minutes Naadika Nakshatra that falls in the prime Nakshatra.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Karnavedha

Piercing ears is done with in 12 or 16 days from birth to the child.

Lagna: - It is always preferred morning Lagnas. 8th house is kept vacant. There is no specific Lagna mentioned for this. Only condition is it should be in the morning. That means it should be with in first 4 hours from Sunrise. Alternatively, it can be done in 6th or 7th or 8th Month and in Vrishabha, Mituna, Karkataka, Kanya, Dhanur Meena is good. If occupied by Soumya other Lagnas are also eligible. Morning time is a must.

Thithi:- Avoid Sun ingress, Chaturthi, Navami, Chaturdashi Pournami and Amavasya to be avoided. Krishna Paksha Ashtami and Chaturdashi and Shukla Pratipada also to be avoided.

Vara: Thursday, Wednesday, Friday, Monday or these horas on Sunday can also be used (provided it falls in the morning).

Nakshatra : Mrigashira, Ardra, P.Vasu, Pushyami, Uttara, Hasta, Chitra U. Ashada, Shravana, Dhanishta, U. Bhadra, Revathi. Ashwini & Swati is mediocre.

(Refer Rules for Muhurtha item no: 21 to 25 - Most important).

Choulam (Tonsure)

Ayana: Uttarayana, Avoid Adhika Masa or Kshaya masa.

Lagna – Avoid Mesha, Vrischika, Simha, Dhanu, Lagna - Best Lagna Karkataka, Kanya, Mituna, Meena, Tula, Vrishabha, Makara.

Thithi: - Pratipada, Chaturthi, Shashti, Ashtami, Navami, Chaturdashi Rikta Chidra Thithi is to be avoided, Vishti and Shakuni Karna to be avoided.

Vara : Monday, Wednesday, Thursday, Fridays are good. Sunday is ok.

Nakshatra: - Ashwini, Mrigashira, P.Vasu, Pushyami, Hasta, Chitta, Shravana, Dhanishta, Revathi are best. –Rohini, Uttara, Swati, U. Ashada, Shatabhisha,

Anuradha, U. Bhadra are 2nd rated. Rest is to be avoided.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Aksharabhyasa (Alphabet practice)

Generally, when the child male or female attain the age of 5 years (that is completed 4 years) 5 month and 5th day the Akshara Yoga occurs. If that falls in Uttarayana it is very good(but not a must).

Masa –Avoid Ashada Kumbha masa (sun transiting in Kumbha. Corresponds around Phalguna masa).

Ayana – Preferred Uttarayana.

Lagna - Mesha, Karka, Tula and Makara 1st preference, 2nd preference Mituna, Kanya, Dhanush and Meena.

Thithi – Pratipada Dwitiya, Tritiya, Panchami, Shashti, Dashami, Ekadashi, Dwadashi.

(Decide the paksha guna bala of the above in Chandra Paskha Guna bala table).

Avoid : Chaturthi, Ashtami, Navami Chaturdashi, Amavasya and Pournami.

Vara – Wednesday, Thursday, Friday, Monday, It can be on Sunday also.

Nakshatra - Ashwini, Mrigashira, Punarvasu, Pushya, Hasta, Chitta, Anuradha, Shravana, Dhanishta, Revathi, U. Bhadra are preferred. In 2nd preference, Rohini, Uttara, Swati, Uttarashada Shatabhisha.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Eight Saraswata yoga : 1. Kanya Lagna –Peak Exalted Mercury on Wednesday, 2. Kanya Lagna Sun, Moo, Mercury in Lagna in Mitunamsha and Kanya Lagna. 3. Mercury and Moon in Kanya Lagna in Mitunamsha. 4. Kanya Lagna in Kendra Jupiter and Venus getting Vargottama Amsha. 5. Sun exalted in Mesha Lagna, in 2nd Mercury and in 12th Venus. 6. Meena Lagna Venus deep exalted. 7. On Wednesday or Thursday Mercury in Lagna and Sun and Mercury both in Mituna or Kanyamsha. 8. Karkataka Lagna Jupiter is in exalted degrees.

Upanayana

For the community Brahmin boy this should be performed at the age of 8th. For Kshatriya it is at 11th year and for Vyshya 12th year. However, with the dosha of Kalatikramana, the Upanayana can be performed up to the age 16, 22, 24 for boys of Brahmin, Kshatriya and Vyshya. In these cases, proper remedies to be done to overcome Kalatikramana dosha.

I am doubtful of getting a suggestion for good remedy. For me best remedy is to perform a 16 days Upavasa with only taking tulsi water and reading Vishnu sahasra nama for 3 times a day. and on 17th day 18th 19th 20 21 day only Fruits reading Vishnu sahasra nama once in the morning and in the evening Lakshmi stotra. Then one-time satwik meal in the afternoon till the muhurtha is fixed to perform Upanayana. Parents also to maintain 1 time meal throughout this process.

Masa – Chaitra, Vaisakha, Jyeshta, (except for eldest son) Magha, Phalguna. The month Ashada is also allowed for Kshatriya and Vyshya and for cases of Kalatikramana dosha.

Ayana :- Preferred Uttarayana.

Lagna: - Vrishabha, Mituna, Simha, Kanya, Dhanush are best. Rest except Mesha, and Kumbha other can be considered.

Paksha:- Shukla paksha is preferred and Krishna paksha till Panchami.

Thithi: -Pratipada, Dwitiya, Panchami, Saptami, Dashami, Ekadashi, Triodashi.

(Look for Paksha guna Bala).

Vara :- Monday, Wednesday, Thursday, Friday (on Sundays can also be done with good Lagna and yoga).

Nakshatra -Ashwini, Rohini, Mrigashira, P.Vasu, Pushyami, Uttara, U.Ashada, U. Bhadra, Hasta, Chitta, Swati, Anuradha, Shravana, Dhanishta, Shatabhisha, Revathi.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Important points:

In 8th year if Upanayana performed in Vasantha Ruthu (Spring), or in his birth month, Thithi or Nakshatra have no evil at all.

Other than 8th year, the restriction of Birth Month, Birth Thithi and Birth Nakshatra are all prohibited. Only concession is in Birth the first 10 days is prohibited. In the rest of the days his Birth Thithi and Birth Nakshatra should be avoided. Alternatively, the birth Paksha is to be avoided in the birth month and the next paksha can be performed which is logical.

Birth Masa, Thithi, Nakshatra and Lagna of at birth of first boy in Brahmin community is permitted to be the part of Muhurtha. The subsequent sons and the other communities Kshatriya and Vyshya to restrict Upanayana on Birth Masa, Thithi, Nakshatra Lagna.

In Chaitra Masa when Sun in Meena is highly auspicious.

The Upanayana should be performed at Forenoon that is from Sunrise within 4 hours. (that means the Yajnopaveeta Dharana and Gayatri Upadesha).

Note: Presently this activity is given least importance, except in the community of brahmin priest. I do not know of any other community like kshatriya and Vyshya follow this. This has become a routine ritual either to have an Yajnopaveeta before marriage or at the time of performing last rites. This is done simply to satisfy a ritual. In many cases after, even in brahmin community unless the category of priest, the Upanayana is done with lesser format restricting the shastras (for example neglecting the tonsure on 5 places & sporting a shikha “the crest”). Later days the Yajnopaveeta is disrespected and hanged to wall or even totally removed and thrown.

This is a mockery of the most effective cultural and auspicious grant of power to the mankind and for such careless attitude muhurtha has no meaning.

Upasana Deeksha or Mantra Saadhana

Rigveda mantras are to be recited loudly. Yajurveda mantras are to be recited with low tone. Samaveda is musical and it has its meter and rhythm. Atharva Veda contains most of the Rigveda and Yajurveda mantra and accordingly it has to be recited. Upasana is worship, Saadhana is obtaining power.

Ayana: For Upasana that is worship of deities Dakshinayana and for Saadhana to attain power is good in Uttarayana.

Masa: - For Saadhana –Pushya Masa Magha, Phalguna, Chitra, Vishakha Jyeshta Ashada: For Upasana: Shravana Masa, Bhadrapada, Aswija, Kartika, Margashira, (Avoid on Janma Masa and Adhika and Kshaya Masa).

Lagna: Mituna, Kanya, Dhanur Meena (I am of the opinion that the sign should be strong to support the mantra. I prefer Dhanur & Simha Lagna for Mantra Saadhana and For Upasana I prefer Vrischika and Karkataka Lagna).

Thithi: Shukla paksha Dwitiya, Tritiya, Panchami, Dashami, Ekadashi, Dwadashi, Krishna Paksha Pratipada, Dwitiya, Tritiya, Chaturthi and Panchami.

Travel

There is no meaning to search for a muhurtha for regular travel to day-to-day work. Or once in while going for short trip that has no specific purpose except for pleasure or relaxation.

It is particularly meant for Long journeys especially for a job, for an interview of a job that is outside city or country. Or for a Business transaction (here even if it is short travel it has a purpose) Marriage negotiations, Partnership negotiations, or Meetings of specific reason. Or for any negotiations for to win or to compromise. For Journeys having any specific purpose and has the option to select the day of journey.

Lagna for Travel

Mesha, Karka, Tula, Makara, Mituna, Kanya, Dhanush favourable. Kumbha and Meena to be avoided and their Navamsha also bad.

If Janma Lagna Lord or Moon Lord posited in a good place in Muhurtha Lagna, it is very good for travel success. But there should not be cruel planet in Muhurtha Lagna or with the Lord of Birth Lagna or Janma Rashi lord.

Ghatha Lagna: for Janma Lagna Opposing (x) Muhurtha Lagna

1. Mesha x Mesha (Janma Lagna not allowed), 2. Vrishabha x Mituna, 3. Mituna x Kanya, 4. Karka x Makara, 5. Simha x Mesha, 6. Kanya x Simha, 7. Tula x Meena, 8. Vrischika x Mituna, 9 Dhanush x Simha, 10, Makara x Vrischika, 11. Kumbha x Mesha, 12 Meena x Karka.

Thithi: Dwitiya, Tritiya, Panchami, Saptami, Dashami, Triodashi and the Pratipada of Krishna paksha. Avoid Chaturthi, Shashti, Ashtami, Navami, Dwadashi, Chaturdashi, Amavasya and Purnima and also Pratipada of Shukla paksha.

Ghatha Thithi:

If Birth sign is Mesha or Vrischika and in any of these Lagna if need to travel on Pratipada, Shashti or Ekadashi, avoid 2 hrs 24 minutes from the beginning of Thithi.

If Birth sign is Vrishabha, Kanya and Meena and in any of these Lagna if need to travel on Panchami Dashami, avoid 2 hrs 24 minutes from the beginning of Thithi.

If Birth sign is Mituna, Karka and in any of these Lagna if need to travel on Dwitiya, Saptami Dwadashi, avoid 2 hrs 24 minutes from the beginning of Thithi.

If Birth sign is Simha, Dhanus, Kumbha and in any of these Lagna if need to travel on Tritiya, Ashtami, Triodashi, avoid 2 hrs 24 minutes from the beginning of Thithi.

If Birth sign is Makara, Tula and in any of these Lagna if need to travel on Chaturthi, Navami, Chaturdashi, avoid 2 hrs 24 minutes from the beginning of Thithi.

If there is good yoga forming on the day like siddha yoga except on Navami +Saturday, the evil of Thithi can be ignored. Look for avoidable yoga in Thithi section for travel.

Thithi Shoola

Pratipada and Navami prohibited for travel to Eastern direction from the place of residence.

Shashti and Chaturdashi prohibited for travel to Western direction from the place of residence.

Dwitiya and Dashami prohibited for travel to Northern direction from the place of residence.

Panchami and Triodashi prohibited for travel to Southern direction from the place of residence.

Totally avoid traveling on Shukla Dwitiya in the Kartika masa as this is called Yama Dwitiya.

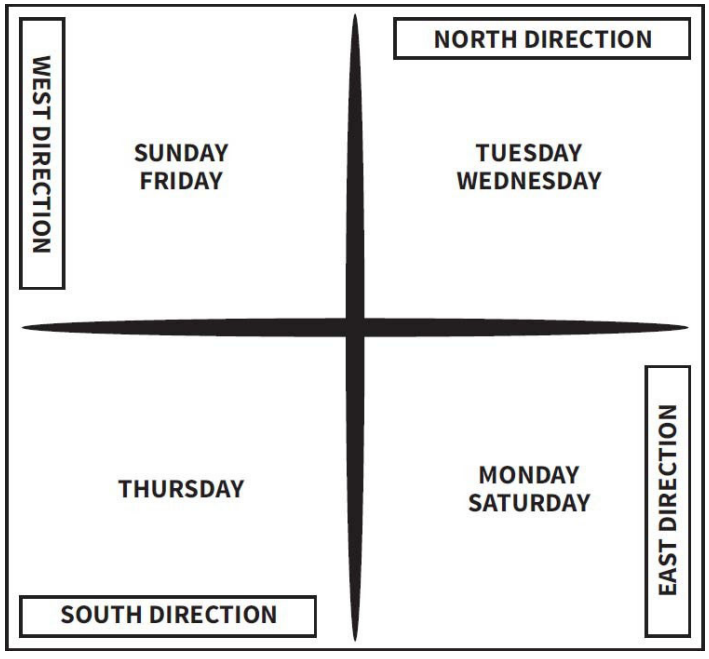

Vara:- Monday, Wednesday, Thursday, Friday. Avoid Saturday, Sunday and Tuesday.

(but if Saturn, Sun or Mars are placed in 3 6 11 on the day of travel on these week days these days can be considered. Another exemption, on Sunday at Sunrise travel is allowed, Saturday after sunset and on Tuesday after lunch it is allowed).

Ghatha Vara:

1. Mesha Lagna Sunday is Ghatha, 2. For Vrishabha, Simha, Kanya Saturday is Ghatha 3. Mituna Lagna, Monday is Ghatha, 4. Karka Lagna, Wednesday is Ghatha 5. Tula, Kumbha, Thursday is Ghatha 6. Vrischika, Dhanush, Meena, Friday is Ghatha. 7. For Makara Lagna, Tuesday is Ghatha.

Vara Shoola – Travel in these direction on the week days mentioned is evil. Avoid travel in these directions on the days shown in each direction.

Nakshatra for Travel:

Shubha Nakshatra : Ashwini, Mrigashira, P.Vasu, Pushyami, Hasta, Anuradha, Shravana, Dhanishta, Revathi, Jyeshta, Moola are best.

Madhyama Nakshatra : Rohini, P. Phal, P.Ashada, P. Bhadra, Shatabhisha, Uttara, U. Ashada, U. Bhadra.

Adhama Nakshatra : Chitta, Swathi, Vishakha (all three nakshatra avoid first 5 hrs 36 min), Makha Ashlesha(Avoid first 4 hrs 24 Min), Krittika(Avoid Frist 8 hrs 24 Min), Ardra, and Bharani (Avoid first 2 hr 48 min).

Avoid:- Janma Nakshatra, and 25th and 27th Nakshatra counted from his birth Janma Nakshatra for travel.

Shanku Sthapana:(Bhoomi Puja)

Masa: For eastern facing houses to commence in the month when Sun transiting in Makara Kumbha. For house facing South commence when Sun transiting in Mesha and Vrishabha. For House facing West commence during Sun transiting in Karka, Simha and for House facing North during Sun transit in Tula and Vrischika. When Sun is transiting in Mituna, Kanya, Dhanur Meena no Bhoomi puja or Shanku Sthapana to be performed.

Lagna : Simha, Vrishchika, Vrishabha, Dhanush, Meena, & Kumbha, Mituna, Kanya, Tula.

Planets : Except in 8th, planets can be anywhere, except that cruel do not aspect or occupy Lagna. Cruel in 11th is very good, in 3rd and 6th acceptable. But Soumya should not be in 6 12 if they are enemy houses to Lagna.

Thithi Pratipada, Dwitiya, Panchami, Shashti, Dashami, Dwadashi, Pournami.

Vara: Thursday, Friday, Monday, Wednesday.

Nakshatra: Anuradha, Rohini, Revathi, Pushyami, Uttara, U. Ashada, U. Bhadra, Mrigashira Hasta are best. Next option is Chitta, Moola, Swati, P.Vasu, Dhanishta, Shatabhisha. Rest Just forget it.

Construction

Foundation of Pillars, Beams and Fixing Door frames

Lagna: Vrishabha, Simha, Mituna, Kanya, Tula and Vrishchika.

Mars should not be in 8th he should in his own signs or friends sign. He should not be debilitated. Avoid his aspect on Lagna. Jupiter, Venus in 4th for odd sign Lagnas and in 10th for even sign Lagnas. They can be in 1 5 9 but not in 7th or 8th. (if 8th is friendly sign to Lagna they can be) If Mars aspect Jupiter or Venus will enhance the strength of foundation.

Thithi : Pratipada, Dwitiya, Shashti, Ekadashi Tritiya, Panchami, Saptami, Dashami, Triodashi and Pournami.

Vara: Tuesday, Sunday, Friday, Monday.

Nakshatra: Ashwini(avoid on Tuesday), Anuradha, Chitta, Dhanishta Revathi, Hasta, Mrigashira, Pushyami, P. Vasu Shravana, Rohini, Swathi, Shatabhisha Uttara, U.Bhadra, U. Ashada.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

House construction:

Masa : Vaisakha, Shravana, Kartika, Margashira, Magha and Phalguna are good nakshatras to start construction of house. Vaisakha, Shravana and Phalguna are the most suited for construction.

But Mesha –Chaitra, Vrishabha -Jyeshta, Karka- Ashada, Simha -Bhadrapada, Tula-Aswija, Vrischika -Kartika also, are allowed.

Sun in Mituna, Kanya, Dhanus and Meena should be avoided.

Lagna: Vrishabha Mituna, Kanya, Dhanush, Meena are 1st Grade Lagna. Vrischika and Simha are mediocre. Chara Lagna and Chara Navamsha are avoided. (the concept is when you enter into to the house it should be for permanent stay. But for buying it is a progressive, you keep on adding buying. Chara means progressive).

The best position of Planet as described in Lagna chapter to be seen.

Thithi:- Shukla paksha is preferred. In Krishna paksha before Dashami is better. Pratipada, Dwitiya, Shashti, Ekadashi Tritiya, Panchami, Saptami, Dashami, Triodashi and Pournami or best Thithi.

Vara: - Friday, Thursday, Wednesday is best. Saturday is 2nd preference. Sunday and Tuesday are to be avoided. Monday in Shukla paksha is allowed.

Nakshatra: Ashwini (avoid on Tuesday), Anuradha, Chitta, Dhanishta Revathi, Hasta, Mrigashira, Pushyami, P. Vasu Shravana, Rohini, Swathi, Shatabhisha Uttara, U.Bhadra, U. Ashada.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Gruha Pravesha:

(Entering into constructed new house)

Masa: - Magha, Phalguna, Vaisakha and Jyeshtah are best. Margashira and Kartika can also be considered in 2nd preference.

Avoid: Chaitra, Ashada, Shravana, Bhadrapada, Aswija, Pushya masa to be avoided.

Lagna: Vrishabha, Mituna, Simha, Kanya, Vrischika, Kumbha.

Avoid: Mesha, Tula, Karka, Makara (if the Navamsha Lagna are in the above acceptable Lagna or if it is in any of Soumya graha Navamsha, or if it is in the Navamsha of an exalted Soumya planet. These Lagna falls in 3-6-10-11 if counted from Janma Rashi or Birth Lagna, then also these are accepted.

Note: It is always preferred to do it before Noon. But if strong Moon and Sun are in the Muhurtha chart it can also be done after sunset.

Please see the Lagna chapter for best placement of planets.

Thithi: Panchami, Dashami and Pournami preferred for East facing houses, and for West facing Dwitiya and Tritiya and Saptami. For North facing house Tritiya and Ashtami and Triodashi is preferred. For south facing houses.

Pratipada, Shashti and Ekadashi.

Vara: Friday, Wednesday, Thursday, Sunday and Monday.

Nakshatra : Rohini, Mrigashira U. Phal, Chita, Anuradha, U. Ashada, Dhanishta, Shatabhisha, U. Bhadra, Revathi.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Nakshatra Kalasha Check: Count from the Nakshatra in which Sun is posited to Nakshatra of Moon position. (27 nakshatra only). In this the first Nakshatra where sun is posited is Bad. Next four is also bad. The next 8 Nakshatra are Good. Next 8 nakshatra are bad. Last 6 are good.

For Example, today on 8th Jan 2021 at :04:28 A.M in Hyderabad, the Sun is in P. Ashada and Moon is in Swathi.

First 4 nakshatra are Bad.

20	P.Ashada	1 - Agni Daha
21	U.Ashada	1 - Udvasana - Expelling
22	Shravana	2 - Udvasana – Expelling
23	Dhanishta	3 - Udvasana – Expelling
24	Shatabisha	4 - Udvasana – Expelling
25	P.Bhadra	1 - Labha - Beneficial
26	U. Bhadra	2 - Labha - Beneficial
27	Revathi	3 - Labha - Beneficial
1	Ashwini	4 - Labha - Beneficial

2	Bharani	1 - Lakshmi Prapti
3	Krittika	2- Lakshmi Prapti
4	Rohini	3- Lakshmi Prapti
5	Mrigashira	4 - Lakshmi Prapti
6	Ardra	1 - Kali Kalaha – fights & fright
7	Punarvasu	2 - Kali Kalaha – fights & fright
8	Pushya	3 - Kali Kalaha – fights & fright
9	Ashlesha	4 - Kali Kalaha – fights & fright
10	Makha	1 - Vinasha (gharbha nasha)- Destruction
11	Pubba	2 - Vinasha (gharbha nasha)- Destruction
12	U. Phal	3 - Vinasha (gharbha Nasha)- Destruction
13	Hasta	4 - Vinasha (gharbha Nasha)- Destruction
14	Chitra	1 – Grihadhipathi Stiratwa
15	Swathi	2 – Grihadhipathi Stiratwa
16	Vishakha	3 – Grihadhipathi Stiratwa
17	Anuradha	1 - Sarvada Stiratwa
18	Jyeshtah	2 - Sarvada Stiratwa
19	Moola	3 - Sarvada Stiratwa

The moon is not in the Same Nakshatra of Sun. It is not in the next 4 which is bad. Next it is also not there in next 8 good Nakshatra. It is not in the next 8 Bad nakshatra. Swati is in the Good nakshatra of the last 6 nakshatra. Therefore Swati is acceptable.

Note: The house construction and entry into the new house is the self-effort and the yoga of the native that occurs by the operation of Dasha and Bhukti.

Lagna Nakshatra is supposed to be driver of any yoga, This yoga is formed by timing of Dasha. Therefore, it is logically correct to consider Lagna or the current Dasha Lord running Nakshatra for Tara Bala.

Entering old house or Rented house

Masa: - Avoid: Chaitra, Ashada, Pushya masa.

Lagna: 1st Preference Kanya, 2nd preference Vrishabha, 3rd Preference Simha and Dhanush. Avoid Vrischika and Mesha. 4th is Meena and Last preference Karkataka.

Ploughing-Agriculture

Lagna : Vrishabha, Mituna Kanya, Karkataka, Vrischika, Dhanush, Meena.

Moon in watery signs is preferred. The fiery plants Mars and Sun and Ketu should not be in fiery signs (including Dhanush). In Bhava they can should be in a house where they become weak. In another concept if they' re placed in papastana they engage in destruction of papa stana and that makes other shubha stana to support the Muhurtha.

But they should not be in papa stana as lords of papastana. Papastana are 3 6 11 and Dustana are 8, 12. In this 6th 8th and 12th will be friendly to certain Lagnas unless they are occupied by the own lords. However, any planet in 8th is ruled out.

The remaining 12th house unless is occupied by own lord is shubha to Odd Lagnas and it is papa to even Lagnas. The other 6th house is Papa to Odd Lagna and Shubha to even Lagna. Therefore Sun, Mars, and cruel should not be in 6th or 12th which are friendly to Lagna. Because the cruel will spoil the good effect of these 6th and 12th house that are supposed to help Lagna to be strong.

Thithi :- Pratipada, Dwitiya, Tritiya, Panchami, Saptami, Dashami, Ekadashi, Triodashi (see the paksha guna bala).

Vara : Monday, Wednesday, Thursday and Friday.

Nakshatra : Ashwini, Rohini, Mrigashira, P.Vasu, Pushya, Makha, U. Phal, Hasta, Anuradha, Moola, U. Ashada, U. Bhadra Hasta, Swati, Shravana, Dhanishta, and Revathi.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

(Note: Agriculture is an inestimable force-controlled pursuit doled out in confidence to a specific class of people called Farmers. Sadly, it isn't given a status as Varna and shown as 5th Varna but remembered for the last gathering of Varna called Shudra. Lamentably, the governmental issues helpfully contaminated to a gathering of egotistical undermines, have changed the meaning of Varnas to be named as cast and being utilizing as chess pawn. Yet, across the world, the word Farmer i.e., Kisan or Ryutu stays unaltered and their diligent effort and commitment unblemished. Be that as it may, crooks with their mercilessness of political plan pounding on them to devastate the quiet texture of their commitment. I figure they ought to be given the need Varna as "Vyvasaya Karta". This Varna should include all employees and the government machinery and the political heads).

Seeding

Lagna : Vrishabha, Mituna, Kanya and Meena, Karka.

For certain crops of rare use, Vrischika and Dhanush can be used.

Avoid Mesha, Simha Tula Makara and Kumbha Lagnas.

Nakshatra : Ashwini, Mrigashira, P.Vasu, Pushyami, Chitra, Swati, Vishakha, Anuradha, Shravana, Dhanishta, Shatabhisha, Revathi. Never take a loan on Hasta day it makes you to repeatedly take loan it will be never ending.

Money accumulated on Bharani Nakshatra will multiply faster. Collect money on Bharani nakshatra or open a bank account. It will progress.

On Hasta or Sunday or if any Vriddhi Yoga (that is happening because of Thithi +Vara, Thithi +Nakshatra or Vara+ Nakshatra) running do not take make any debt. It will never be cleared.

Never borrow money on Tuesday. On Wednesdays receive the Loan or get back the amount given.

(Refer Rules for Muhurtha item no: 21 to 25- Most important).

Giving Loan

Lagna: Mesha, Karka, Tula, Makara.

5th 8th 9th should be vacant.

Tuesdays clear the or give the debts, Receive the debts on Wednesday.

Dwipushkara or Tripushkara muhurtha will ensure security of the Loan given on interest basis. Loan given on interest basis will fetch regular interest and also clear of debt quickly if Mercury occupy the 8th house, that represent 2nd house of the opposite person. If mercury is in 9th it will be the 3rd house of opposite person that is 2nd to 2nd extra earnings. That he will be sharing to us as Interest. 5th house represents gain house 11th of opposite party. Thus, mercury here indicates sharing of opposite person gains. That means if the transaction is for interest earning then the loan can be given if Mercury is in 5th 9th or 8th.

Thithi : Avoid giving loan against mortgage or pledge in Bharani, Krittika, Ashlesha Makha P. Phal, Vishakha, Jyeshta, Moola P. Ashada, P. Bhadra.

“In the first part of the day prior to the Sun really rises, the spotless sky the eastern way will light with a golden hue, which is adored by Devatas is called Usha Kala. In this Usha Kala, all favorable work should be possible without examining Thithi, Vara Nakshatra & Karna. This will free from thousands of evils and award favorable aftereffects of the occasion”.

At the point when the Sun is 6 degrees beneath the skyline, the situation of the shloka shows up consistently. It is widespread and can be seen by everyone when the sky is revealed by mists. The Sun movement is 10 for each 4 minutes. To cover 6 degrees, it requires around 24 minutes.

24 minutes is the period of time of a Naadika. That implies it is the 60th Naadika. Registering this in Vedic day it will be earlier days Last 24 minutes and according to the Gregorian schedule it simply 24 minutes short of Sun rise.

Cross check in Bhargava Naadi, this being 60th Naadi, accounts favorable on Sunday Monday and on Thursday (only for travel). Rest of the days this period is Evil.

Therefore, the favorability of 24 minutes dictum is not applicable to all days.

1.Sunday –24 Minutes prior to Sunrise –All auspicious activities without looking into any aspect of Muhurtha can be performed.

2.Monday - 24 Minutes prior to Sunrise –All auspicious activities without looking into any aspect of Muhurtha can be performed.

3.Thursday –Travel for any purpose will be successful. That means journey, that is movement should commence during that 24 minutes.

Other than these 3 days all other days it has a bad Naadika during that 24 minutes. In fact, on all other days this time should never be selected.

Shiva Muhurtha

it was when Parvathi enquired about the muhurtha utilized by shiva to pulverize Tripura, the ruler Shiva opened up the insider facts of Dwighati. That is the essence eventually it is Shiva Muhurtha as advised to Parvathi. There are shlokas to clarifying above however I am skipping them to save space for more reasonable substance.

All work to be done in the wake of knowing the shuba or Ashubha composed by Shiva. At the point when you read the muhurtha you will comprehend the Shubha or Ashubha.

in this muhurtha cycle,

Tithi, Nakshatra, Yoga, Karna, Shoola, Yogini, Lagna, Hora malicious impact, Vyatipata Sankranti Bhadra Ashubha day none of these are to be investigated. Muhurtha composed by Shiva whenever embraced all obstacles will be removed and acceptable is done.

Simply comprehend the benefits of Shiva Muhurtha and everything can be performed without any obstacle.

Perhaps the simpler version of Muhurtha is being told by Lord shiva.

1.There are about 16 Muhurtha in the day and 16 Muhurtha in the night. Total 16 Muhurtha. Each muhurtha is short listed for a few activities.

I have prepared the table taking the meaning of every Muhurtha to suit the requirement.

2.Each of the Muhurtha begin with different Muhurtha in sequence in the morning and differs in the sequence at night.

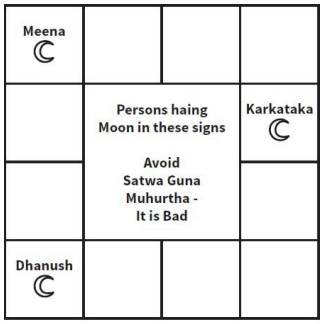

3.The Shiva muhurtha is not 48 minutes it is 45 minutes each.

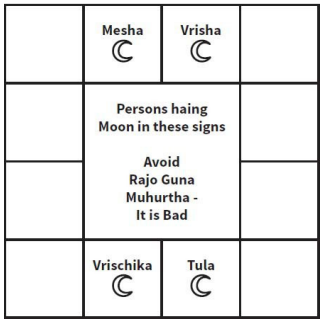

It begins different muhurtha on each Week day and completes the cycle of Muhurtha till Sun set. After Sun set the muhurtha begin with different Muhurtha and completes the rest of 8th muhurtha overnight.

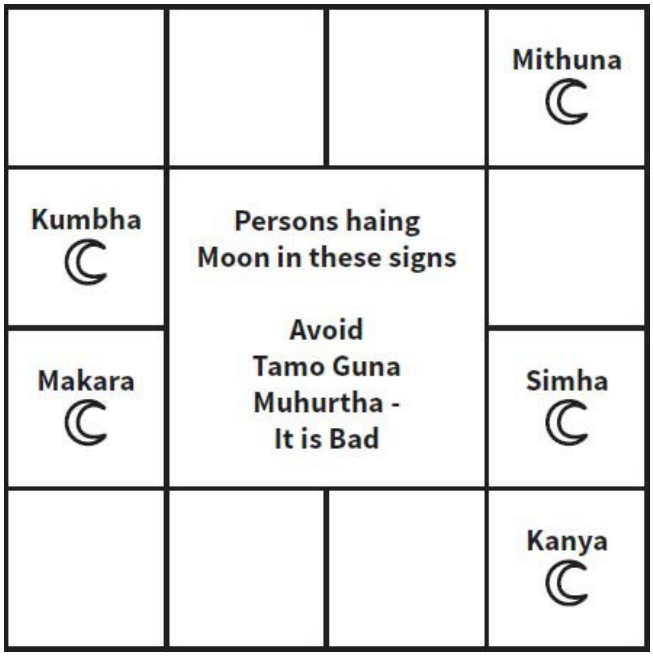

4.Nothing to worry: I have made table, that will be easy to follow which are being explained.

5.Satwa, Rajas, Tamo, Gunas are introduced in week days to operate in two muhurtas each guna. That is also marked in the table [S= Satwa, R=Rajas, T= Tamo guna with their effects detailed).

6.The most important is: Moon signs of Individual and the compatibility of Satwa, Rajas and Tamo guna.

7.Other than Ghata Gunas mentioned in the above signs, remaining two guans will be beneficial. The Swatika Guna and Rajo Guna which are avoidable based on postilion of Moon in Natal chart acts like Tamo Guna.

8.Muhurtha are divided with their nature to each week day in the specific Lunar Months.

Magha, Phalguna, Chaitra, Vishakha, Shravana, Bhadrapada as one set.

Aswija Kartika Margashira, Pushya as another set.

Two mala masa Jyeshta and Ashada the third and last set.

9.How to use table:

Point no: 1. My Rashi is Karkataka: That is Moon is in Karkataka. That means I have to avoid Satwa Guna Muhurtha.

EXAMPLE HOW TO USE THE TABLES.

Today i.e., 16.1.2021 Saturday.

FIRST TO SEE MONTH: IT IS PUSHYA MASA.

I should look for muhurtha in 2nd set of weeks where Pushya masa is given.

To Day is Saturday. –In the Pushya masa table on Saturday I have to look for Muhurtha.

This day in Hyderabad Sun rise is 6:49:40: The sun rise given in table is at 6 am. Therefore, I had added 0:49:40 to the current day sun rise. 06:49:40.

Then From there Every muhurtha is 45 minutes.

Let me compute all muhurtha for Saturday in the day time.

00:49:40						
06:00:00						
06:49:40	00:45:00	07:34:40	Yaamya	1	T	Mrityu
07:34:40	00:45:00	08:19:40	Soumya	2	T	Amrutha

08:19:40	00:45:00	09:04:40	Bhargava	3	S	Hani
09:04:40	00:45:00	09:49:40	Savitri	4	S	Amrutha
09:49:40	00:45:00	10:34:40	Roudra	5	R	Hani
10:34:40	00:45:00	11:19:40	Shwetha	6	R	Amrutha
11:19:40	00:45:00	12:04:40	Maitri	7	T	Amrutha
12:04:40	00:45:00	12:49:40	Charvata	8	T	Hani
12:49:40	00:45:00	13:34:40	Jaideva	9	S	Amrutha
13:34:40	00:45:00	14:19:40	Vairochana	10	S	Mrityu
14:19:40	00:45:00	15:04:40	Turyadika	11	R	Amrutha
15:04:40	00:45:00	15:49:40	Abhijit	12	R	Amrutha
15:49:40	00:45:00	16:34:40	Ravenna	13	T	Hani
16:34:40	00:45:00	17:19:40	Balava	14	T	Amrutha
17:19:40	00:45:00	18:04:40	Vibhishana	15	S	Amrutha
18:04:40	00:45:00	18:49:40	Sunandana	16	S	Mrityu

All satwika muhurtha is marked in boxes. Other than these I have a choice to use Tamasa Soumya the 2nd muhurtha. Rajas, Shwetha, the 6th muhurtha. Tamas Maitri the 7th Muhurtha, Rajas Abhijit 12th Muhurtha, Tamas Balava 14th Muhurtha can be used. Based on the matter suitable to me I can select any of these muhurtha.

That is all no other component need be checked. (But link the muhurtha day chart with any of the Nakshatra, Muhurtha Nakshatra Naadika Nakshatra considering both Birth and Muhurtha Chart. This is to link the Native to the Muhurtha day and/or time.)

This is the method how a muhurtha is selected. Now I give all the tables that has the information.

chapter 18

Bhargava Naadika

It’s about the inquiry raised by Indra consuming of garden regardless of being implicit most amazing aspect muhurtha fixed by deva master Brihaspati. For this Brihaspati reacts by saying that all the 14 universes made by God can likewise be exposed to fire all things considered what is credit your garden must be saved from the fire.

Not happy with the appropriate response Indra approaches Shukra charya and Brighu answers that the samvatsara(year), Aayana(6 months), Ruthu (2 months) Paksha(15 days) (like two paksha make a month) Dina (week day) Muhurtha, (48 minutes) Naadika (24 minutes) are stronger in the descending order. The least is Naadika of 24 minutes. That implies Naadika is apparently great.

Brihaspati fixed most amazing aspect Muhurtha of 48 minutes representing Rohini yet overlooked Krittika Naadika of 24 minutes, being a fire Naadika resulted in the devastation of the Garden.

In this way, on the solicitation of Indira, Brighu Maharishi introduced the Bhargava Naadika. For the advantage of the world.

It is for me to implicate the system of Naadika muhurtha in an applicable module.

1.Though it looks as if Maharishi did not overlook the importance of regular components of muhurtha, yet the smallest fraction of time since created devasted effect. If corrected the 24 minutes of time this could have been a progressive for the garden.

2.What I construed is Naadika has the power to overlook all other criteria in muhurtha.

3.This an eye opener to re constitute optional muhurtha keeping intact a few selective components.

Selective Components to be kept intact.

I.The Brighu says : □□□□□□□□□□□□□□□□□□□□ □□□ □□□□ □□□□□□□□□□□□□□□□□□ □□□□□□□□□□

That means Thirty Chandra Avastas. That means it is the strength of Chandra. So, by Naadika the Moon strength is automated.

II.Select a Good and strong Lagna. That can be done as given in Lagna chapter.

Select a Good thithi.

Week day: except on Tuesday and Saturday (some times for Tuesdays and Saturdays can also be used in extreme circumstances).

Rest is simple to select the best muhurtha Naadika from the tables given for each week day as strictky propounded by Maharshi Bhargava.

In the statement: 1st column is the Day’s Naadika Number 2nd column is Night Naadika Number. 3rd Column is Naadika (Nakshatra) Name.

Next two column is Timing of each Naadi. This is done taking Universal Clock time as Moring 6 am as Sunrise same 6 pm as evening sunset time.

The corresponding difference in local sunrise and sunset to be added or deducted accordingly.

Example:

For example, I want a Naadika Muhurtha on January 19th 2021 at 12.10 pm. Lagna is Mesha and Lord of Lagna is posited in Lagna it is very strong. Jupiter and Mercury Two Soumya in Kendra so again Lagna is strong. In Kona Venus is sitting. (it is equally important to have a good Soumya in Kona too).

Thithi is Saptami:

Now I will go to Naadika on Saturday at 12:10 P.M.

Note down the Sunrise time: 6:49:47. I will have to add 49:47 to 6 am.

Then count up to 12:10 Pm.

1	06:49:47	00:24:00	07:13:47
2	07:13:47	00:24:00	07:37:47
3	07:37:47	00:24:00	08:01:47
4	08:01:47	00:24:00	08:25:47
5	08:25:47	00:24:00	08:49:47
6	08:49:47	00:24:00	09:13:47
7	09:13:47	00:24:00	09:37:47
8	09:37:47	00:24:00	10:01:47
9	10:01:47	00:24:00	10:25:47
10	10:25:47	00:24:00	10:49:47
11	10:49:47	00:24:00	11:13:47
12	11:13:47	00:24:00	11:37:47
13	11:37:47	00:24:00	12:01:47
14	12:01:47	00:24:00	12:25:47

The time is 12:10, therefore it is 14th Naadika in the Table. It says:

Acts of permanent nature yields benefits.

Therefore, I have time to do some permanent nature: up to 12:25:47. That is how the muhurtha can be fixed.

Choose the issue first and afterward search for a Thithi and solid Lagna then straight away select a decent time from Naadika. That will be magnificent Muhurtha .

How elements work

The five elements that is Prithvi, Jala, Agni, Vayu, Akasha Tatwa repeat in the cycles commencing from with a particular Tatwa on a week day commencing from Sun rise. Each of them has specific time span:

Prithvi Tatwa - Mer 0:06; Jala Tatwa - Moo/Ven 0:12; Agni Tatwa - Sun/Mar 0:18; Vayu Tatwa - Sat 0:24; Akasha Tatwa - Jup 0:30.

Each week day at Sun rise it commences with their Tatwa and continues with a sequence predefined. They complete their cycle for the whole day and night till next day Sunrise.

The Time span allotted to them is the Muhurtha.

Each muhurtha has specific nature to decide the matter the native has selected. They are given against each muhurtha for easy reference.

Bhoomi Tatwa of Mercury that is Earth:- It’s all for fixed and Permanent nature, Material benefits, relational, Progress Learning happiness.

Jala Tatwa - of Venus: All celebrating, All work relating to female, Luxury, relationships, and Wealth.

Jala Tatwa of Moon- Travel, happiness, Relationships, Changes All auspicious activities that is for development of mind.

Agni Tatwa of Sun: Status, Governing, Strictness, Success, all last rites. All works to clear Rina.

Agni Tatwa of Mars: Violence, Power, hardships and dangers.

Vayu Tatwa of Saturn: Except for house warming, All others are bad and dangers.

Akasha Tatwa of Jupiter: All auspicious matter, Education, Expansion, Dharma, Spiritual, all material success.

How to apply this:

Example :

Today is Sunday:

Suppose I want to start a Website for coaching Astrology. What is the good time to day. The time is 7:40 Am. On 17th Jan 2021. The Time given in statements are for Sun rise at 6 am. 6:49:44. That means there is a difference of 49: 44 minutes that need to be added to the timing of Sun rise in statement.

1.	06:00:00	00:49:44	06:49:44
2.	06:49:44	00:49:44	07:39:28
3.	07:39:28	00:49:44	08:29:12

So the Time 7: 40 is coming at 3rd number 7:39:28 to 8:29:12.

Let me see the chart It is Akasha Tatwa –“All auspicious matter, Education, Expansion, Dharma, Spiritual, all material success”.

This time is good for the work of commencing the Website.

chapter 20

Graha Kala Muhurtha

Yet another and last method for quick muhurtha for general not specified items from Muhurtha. It is called Graha kala.

All the 7 planets are divided on their days in to 8 parts in the Day Time, and 8 parts in the Night time. The Sequence is from Sunday to Saturday in the day time and in the Evening it starts from the 5th planet of Sunday and the sequence completes. Interestingly the Rahu kala is only in the Day time and the Ketu Kala goes in the Night portion.

Jupiter, Venus, Mercury and Moon are always good. and Rahu is good for Illusional activities, and Vehicles, or Big Luxury shops and malls. Ketu is good for prayers meditation and rituals. Saturn expect for house warming or for work, is bad to commence any other work. Mars and Tuesdays better to avoid unless the matters giving in the Mars is to be performed.

For any selected matter just look for which week it follows and note that week. In the below table add or deduct the Sunrise and Sunset difference as per location. Then select the good planet time and perform.

Nothing else to be seen. This can be used for all general and quick matters that needs to be commenced or to be done.

PURPOSE AND USE OF THIS BOOK

Actually, this book is propelled by the power of a couple of shlokas that opened up the new horizon to ease applicational parts of Muhurtha. Something else, there is an armada of books of Muhurtha that rehashes similar stuff in various dialects including English. Classics on this subject are perfectly clear in their suggestions with numerous discretionary computational information, that should go into outlining an intergalactic time span for the ideal occasion. The round of understanding endured in the possession of the lesser-known or unrelated self-claimed experts. In fact, the muhurtha is the symphony of interference of invisible parallel world that demonstrates its concurrence either to benefit or loss of an undertaking in the physical plane.

Universally set such stage needs wisdom to individualize to suit the desired event for a profitable progress. This art of synthesis is beautifully orchestrated with several microscopic alternatives to set in tune.

1.Explores many divisional components.

2.Art of synchronizing the Tara or Chandra bala

3.Explores the fineness of muhurtha, with details of, Thithi and its Thityamsha, Vara and Hora, Nakshatra and its Muhurtha and Naadika parts, with all micro Yogas, avoidable, exemptions are all discussed in respective chapters.

4.Importance of Naadika

5.Ceremonies and Muhurtha

6.Besides classical Muhurtha, Shiva Muhurtha, Bhargava Naadika, Pancha Bhoota Tatwa, Grahakala muhurtha and their exclusive application is described.

7.Most of the conventional Muhurtha events with their prescribed essentials will be handy for fixing Muhurtha.

8.There are many traditional astrological planetary categorizations to decide their functions for each Lagna.

9.Some of the secrets of Muhurtha, are directly linked to many of Astrological principles that shall be very much useful for Birth chart analysis.

This exercise manual on Muhurtha is valuable for Beginners and the Astrologers. It stimulates the clerics to investigate the choices endorsed by sages to fix Muhurtha.
